## COMPANIONSHIP, SAFETY, CONSERVATION

Greetings to all campers!

This year, and particularly in comparison with last year, the summer weather has been nothing short of spectacular. The only set back was a considerable absence of good rain impacting on forest growth and creating forest fire hazard. As every summer the Picnic was the highlight event for the campers and their guests and, as for so many years, the weather cooperated fully. Picnic is the time to enjoy, reconnect and reflect, make new friends, take part in TLCASD activities but above all Picnic is for our children, grandchildren, nephews, nieces, other relatives and children of our guests. It is an immense pleasure to watch their faces, from the youngest to teenagers, as they take part in activities such as Fish pond, Land races, Golf shoot, Canoe and Swimming races. These are the days that they will cherish in their memories forever. As so many other campers I now watch my grandchildren take part and remember our children doing the same thing more than 25 years ago. Another generation of Trout Lakers is growing up and learning, not only the joy of being the camper, but also the responsibility for preserving this lake for the next and the next and so on generation. As usual, TLCASD tent has been busy and well attended. We were selling Lottery, Art draw tickets and clothing, collecting memberships, having display on environment and latest forestry harvest maps. Ever popular Membership prize draw also took place there. Although we sold \$ 500 worth of tickets less, the main Lottery was a success because second prize – a beautiful quilt was donated by Michele Myre. This substantially reduced our cost. For the first time we run Art Draw and this brought some extra revenue. I want to thank all art donors – their names are listed elsewhere.

Our membership grew again, and at mid-November stood at an all-time high of 205 with some more to come in. Almost 83% of all property owners belong to our Association but our goal of signing all owners remains.

The first meeting of the newly elected Board of Directors was held in June and the next meeting is in December. At this meeting our 2011 budget will be approved and the next year plans of activities discussed. I am also delighted that we have now our own web site: [www.tlcsd.ca](http://www.tlcsd.ca). It is being constructed and by the time you read this report there should be first items posted. If you want to contribute in any way please get in touch with Michele Myre our Director Bulletin.

In closing, I would like to comment on some new wildlife sighting in Trout Lake area. As we all know regular sightings of moose, bear, beaver, deer, rabbits, partridge, squirrels, chipmunks, groundhogs, large number of bird species, and occasional sightings of wolf, coyote, mink, skunk and otter are common. In the last Bulletin a first sighting of Massasauga rattler was reported. I can also report that we have a picture of Lynx resting in the snow just off Cherriman road last winter, and that a cougar was spotted previous summer, as well as cougar tracks were seen last winter on Shaw road. These sightings were on North shore. I imagine that some people are being somewhat uneasy about these animals and reptiles. I can only say that I and my family, like so many northerners, have spent countless days in the bush hiking, fishing, hunting or plainly enjoying the scenery. I have encountered, totally unintentionally, a bear and a wolf fairly close perhaps only few meters away. As I stood there both animals simply walked away. At no time I have been threatened by them or any other animal or reptile. These sightings indicate to me that our unobtrusive behavior has made these creatures comfortable in our surrounding. It tells me that we can, if we want to, behave in such a way as not to disturb and destroy the habitat that supports them. I will leave with a quote from a very good movie about the animals in Africa " If you don't bother them, they will not bother you"

# TLCASD Director Safety Report Fall 2010

November 18, 2010

Hello Everyone,

It has been a very busy year for safety. I will list the major jobs that were done this year .

1- ordered and installed 5 new solar markers.

2- Made and installed 2 new floating strobe lights. This involved 2 weeks of fabricating ,painting and working in my garage, then with the help of Bob Nikolic and his Son we took my boat and installed them. They work very nice .

3- With the help of Paul Chartrand and Paul Fyfe we removed that very large scoop tram tire in front of MacKay's cottage. This job alone took 3 full days, a lot of hard work and ½ tank of fuel from my jeep. There was a lot of sweat and beers but we made it happen. I could not have asked for better guys to work with.

4- Installed 3 new markers and one floating bottle .

5- Delivered a new water pump to Silvery Moon Lodge.

6- Purchased a new water pump with intake and pressure hoses for the fire station at Michel Gravelles. This has to be delivered in 2011.

7- Assisted Bill Munro in removing his markers.

8- My son Josh and I removed our markers on Nov. 15. I then painted the markers bright orange.

9- Nov. 12, a crew of us went to Dodd Lake and cleaned up all the garbage where the boats are stored.

10- A special trip was made on Nov. 15 to 7 markers that were remaining on the lake,4 at the hydro lines and three at Dodd Lake.

I cannot thank my Wife enough for always helping me out.

As you can see solar markers are almost complete, I will purchase 5 more to be installed in 2011.

I hope every one on the lake had a very good year. Many longtime cottagers said they have never seen the lake that low in August. BE VERY CAREFUL of the shoals and rocks.

Director Of Safety

Chris Carrier

## TLCASD Bulletin Director's Report Fall 2010

Greetings to all Trout Lakers.

Just a quick note to let everyone know that the Fall Bulletin will be posted on our website [www.tlcsd.ca](http://www.tlcsd.ca). The site is still under construction, but, we will be posting new information periodically. If you have anything you would like posted on the site, please email me at [lise@ajmpm.com](mailto:lise@ajmpm.com) or call me at 705-524-2718.

On another note, there are many people wanting to come to our clean fresh water lake. If you have a property on the lake and are intending to sell it, I have a few names of people who have personally asked that I pass on their names. Again, email or a phone call is the best method to reach me.

Wishing you all a very Merry Christmas and a safe, happy Holiday Season. Cheers!

Lise Myre

705-524-2718

# TLCASD Director Membership Report Fall 2010

Hello, everyone. As I am writing this report the November weather has arrived. While being away most of September we knew that it was a bit rainy, particularly second half of it. On the other hand October was just gorgeous, warm and sunny. First half of November also was warmer and sunnier than usual, but now its cold and cloudy with a bit of rain.

Our membership dues have continued to pour in, and to date in mid-November we have an all record paid memberships of 203 for a total of 206, and there are still 8 unpaid memberships. As usual we have lost some members that sold their camps, however we have so far signed 18 new members this year. I want to welcome them to TLCASD community and hope that they will find our Bulletin interesting and informative and it will introduce them to many services we offer to our membership.

Before sending official notice, I have called and reminded members about dues.

I know that the following members have sold their property: Roy and Sharon Ardiel, Linda Dyer, Jean-Paul and Lida Gervais, Al and Gloria Houle and Jocelyn and Ed Patton. I wish them good luck in the future. I want to thank all of the people that kept me informed about newcomers to the lake and helping me to sign them up.

In the Picnic section you will find the 2010 list of Membership Prizes winners, those that did not claim their prize are marked by an asterisk\*, please contact me for a pick up.

I wish all of you a safe and mild winter.

Ljuba Nikolic,  
Director Membership

## Our Lake - Our Future Fall 2010

Professionally installed septic system will protect lake water quality. However they will not process paints, solvents, oils, lubricants etc. If you put these into the septic system, the chemicals will reach the lake.

By using fully biodegradable cleaners, soaps, detergents and shampoos, you will further protect lake water. However, remember that these products must stay in soil for 30 days to biodegrade.

# TLCASD Director Fishery Report

## Fall 2010

Hello, everyone. During the summer I have done some maintenance items around the fish pond. New locks were purchased and placed on the pipes and steel container. Old locks are in my possession for use if needed. Inventory of all equipment has been taken along with the photographs for proof, and serial number of the transfer pump included.

The bottom of the pond was cleaned up as well as clipping of the tall grass and weeds to prevent fingerlings being trapped when draining pond to transfer fish to the lake.

I intend to make permanent signs making people aware of the fish pond and the hazards around it. This will provide for safety and remove our liability in case of unfortunate accident, and I want to make safety first priority.

Plans are in the works for our first Annual TLCASD fish fry put together by Fishery Committee in collaboration with Noelville branch of Knights of Columbus, to be held August 20/21, 2011 at their campground. The details will be announced later.

Wishing you tight lines,  
Paul Chartrand, Director Fishery

## Audit Committee Report

FOR THE SIX MONTHS ENDED JUNE 30, 2010

On October 14, 2010 the Audit Committee (see list below) reviewed the books and records of TLCASD for the six months ended June 30, 2010. This review included the books and records and bank statements for both the lottery account and the general account. We checked that all revenue and expenses were recorded correctly including allocation to the correct category. This was done by matching the ledger, bank records, deposit slips and receipts. We also checked the bank reconciliation. At this time we found that everything was in good standing and all items were accounted for and reconciled. The TLCASD treasurer continues to do an excellent job of keeping the records in order. The next review will be conducted in the spring of 2011 to review the books and records for the year end December 31, 2010.

Audit Committee Members in Attendance:  
Janet Henry  
Angie Chartrand  
Carol Munro

# TLCASD Forestry Committee Report

## Fall 2010

During the summer the Forestry Committee was involved in two activities. The Harvest Map for the next 10 years forestry harvest around Trout Lake was displayed and detail questions by the interested campers were answered by Committee members. On August 28th members and others attended an organized one day tour of the nearby forest area with Doug Maki, Silvicultural Forester with VFM. During the tour Doug explained Sudbury District forest organizational set up re: logging companies, forest composition, harvest, reforestation and other activities. VFM (Vermilion Forest Management Company) is formed and financed by 9 partner logging companies that harvest the trees in Sudbury District. The Board of Directors is composed of the representatives of these logging companies. The local partner companies that harvest around our lake are: Lahaie Lumber Ltd. and H&R Chartrand Lumber Ltd. Another partner with harvest rights nearby is GP Northwoods which recently bought out Grant Forest Products, who had earlier bought the Fryer Forest Products share in VFM. GP has made arrangements for Domtar to manage the harvest of these blocks. Fryer Forest Products is now an 'independent operator' with a small harvest allocation.

The forest around Trout Lake area is varied but the most valuable harvested products are stands of white and red pine. To be classified as a white pine stand, the area must contain at least 30% white and red pine trees. On average, in the Sudbury Forest, white pine stands are composed of 40% white and 10% red pine.

VFM employs a two-cut or three-cut shelter wood harvest system in these pine stands. For both systems, the objective of the first cut is to remove most of the non-pine species (leaving a few large poplar for cavity-nesting creatures) and defective pines so that the better quality pine remain well-spaced to provide a seed source and 40 - 50 % shade on the forest floor.

The two-cut approach is used in stands where there is a smaller number of large-topped pine that remain to provide the shade and seed. These areas are treated with herbicide to knock back the vigorous flush of poplar, maple, and brush species that is stimulated by harvesting. This is necessary to give the 10 cm tall white and red pine seedlings that are planted a chance to get established. This also gives seeds dropped from the trees on site a chance to germinate and grow. As seen in the photo, the brush species do re-establish naturally, but the young pine get a good hold on the site. The second cut is done when the young pine have reached a height of about 6 m which will take 15 to 20 years.

The three-cut approach is used in stands with a higher component of pine where the more crowded growing conditions result in a larger number of smaller-topped pines remaining to provide shade and seed. Natural regeneration from the local seed is more dependable in three-cuts, but herbicide is still required to give the pine a chance at renewal. Sometimes the ground is intentionally scratched up by dragging heavy chains behind a skidder to provide better germination conditions. Once the renewed pine is 30 cm tall (5-7 years), a second harvest is done. The third and final harvest is done when the renewal is 6 m tall.

Campers listen to Doug Maki's explanations. From left: John Losier ( purple sweater ), Bill and Carol Munro, Aaron and Kevin Stacey, Doug, Margaret Richer and Dave Moxham.

VFM also employs clear cut and modified clear cut around the lake, however as a result of latest negotiations between TLCASD, VFM and MNR no clear cut is employed within 200 m (approx. 600 ft.) from the lake shore line. In addition there will be no spraying of herbicides within 120 m (approx. 400 ft.) from the shoreline and an additional 120 m no spray zone behind cottage lots.

There were many questions on all forestry issues asked by the members that took the tour. On behalf of the TLCASD I also indicated that we are opposed to the VFM being governed by the lumber companies (kind of fox in charge of the chicken coop) and that we submitted a proposal to Ontario government that the VFM Board be composed of reps of Logging companies, MNR and public. This would ensure the complete freedom of VFM foresters to apply the best harvest practices in Sudbury Forest.

The tour was attended by Committee members: Dave and Barb Moxham, Bill Munro and I. Other campers that attended were: Margaret Richer ( TLCASD Treasurer ), Jean-Yves ( John ) Losier ( Dir. Without Port. ), Carol Munro ( member of Auditing Committee ), Ljuba Nikolic ( Director Membership ) and TLCASD members: Juliette ( Julie ) Losier, Kevin and Aaron Stacey. At the end of the tour, as a token of appreciation and gratitude for this excellent tour, Doug was presented the TLCASD ball cap.

The latest information on forest activities is that Fryer Forest Products is harvesting an area beyond Judge Lake on north side and far away from our lake. Shaw road signs warning about logging trucks haulage are properly posted and operation should be over before year end. H&R Chartrand Lumber plans to cut a white pine area north of Lafreniere Road between Christmas and March using the same winter road used by Fryer in 2002.

Wishing you the best of season,

Slobodan ( Bob ) Nikolic, President and Director Forestry

# TLCASD 2010 Picnic Winners

## 2010 ANNUAL PICNIC RAFFLE

FIRST PRIZE: Pelican 10ft Kayak – Cory Christian, Ticket No. 2174

SECOND PRIZE: Home made Quilt – Al Giroux, Ticket No. 1570

THIRD PRIZE: Garmin car GPS – Michel Gravelle, Ticket No. 1535

## HORSESHOE TOURNAMENTS

LADIES : First Place: Andree Prevost  
Brenda Prevost

Runner up: Lori and Peggy

MEN: First Place : Brent and Marty

Runner up: Ray Bedard  
Eric Guy

## GOLF SHOOT

Winner: Tom Mantula, two hits valued at \$ 76.00.

## JELLY BEAN GUESSING

Maddy Nikolic guessed 574, actual number 574, you can't come any closer. Lowest guess 105, highest guess 1,000.

## 50/50 DRAW

Patrick Cameron won \$ 250.

## TUG OF WAR

THE SOUTH CAME ON TOP! Narrow victory but this time for South in Tug of War contests:

Girls up to 12 years old – SOUTH, Boys up to 12 years old – NORTH

Ladies – NORTH, Men – SOUTH, Everybody – SOUTH

## OLDEST AND YOUNGEST CAMPER

BILL MCKNIGHT – 84 years young - \$ 50 gift certificate for Happy Landing Lodge

PAIGE TAYLOR – 3 months old received T-shirt donated by TLCASD

## ART DRAW

The following members donated items for the art draw: Kim McKibbon – two paintings,

Janet Henry – Afghan crochet, Jackie Gravelle – six hand painted vine glasses, four hand painted coffee mugs,

Judi Barriault – two paper mashe pictures. Six prizes were won

( winners did not give names ), one not claimed left for next year draw.

## CONGRATULATIONS TO ALL WINNERS!

# Canoe Races - All

## AGE 6-9 (MIXED)

1st Alyssa Guzman, Griffin Kelly, Maeve Cameron, Lauren Kelly  
2nd Annie Nikolic, Hannah Adams, Travis Cruise

# End of Summer Celebration Dinner

It took quite a few phone calls by Ljuba Nikolic that resulted in "end of summer" celebration dinner on August 28th at Happy Landing Lodge. Most of the members in attendance were permanent residents on the lake and over 30 members and their guests attended the event. Good time was had by all and plans are already made for the "beginning of the summer dinner" next year.

Lady that organized it and the helper

Chatting before dinner

Food is being cooked

More talk about.....

Long time neighbors

South Shore Reps

Two more from the South Shore

All smiles.....

Events like this help renew the old and establish new friendships and above all build community spirit that Trout Lakers are famous for.

YOU SAID IT.....

To: [nikolics@xplornet.ca](mailto:nikolics@xplornet.ca)

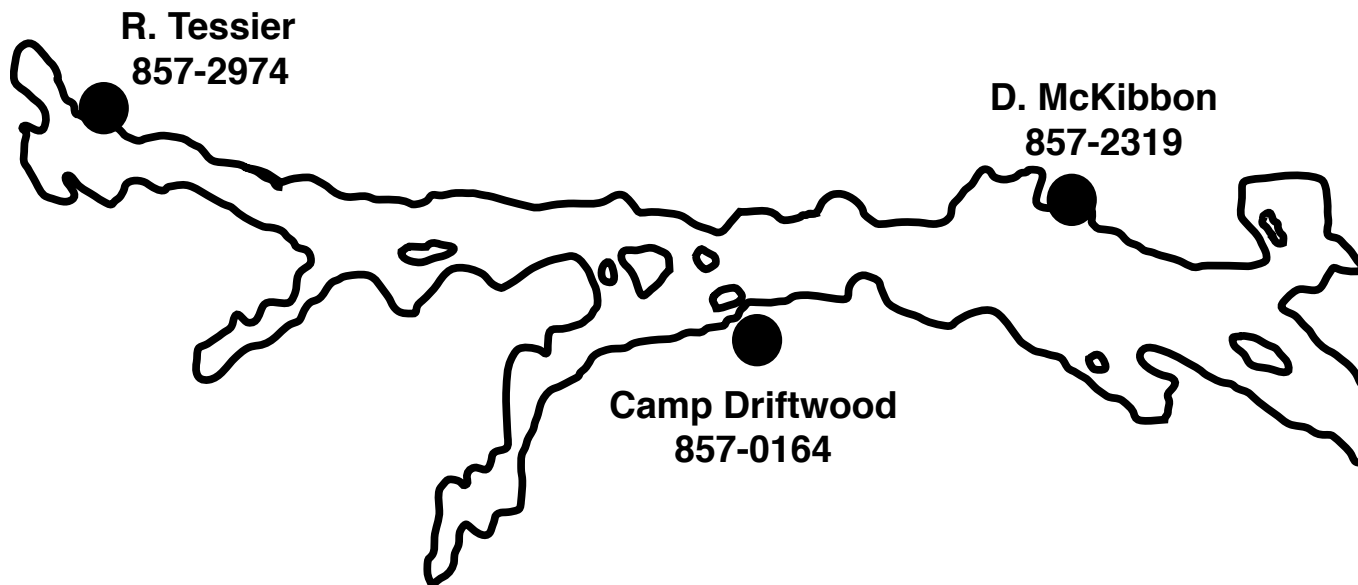

Subject: Trout lake Picnic

We would like to thank you for all your hard work and dedication that you put into each and every year for the picnic. This being our fourth season on Trout Lake, we as a family look forward to that Sunday. It is a time when we all spend the weekend together at the cottage just to take part and enjoy ourselves at the annual event. We have so many great pictures and memories from these picnics. It is something the kids will always remember and talk about. Thanks again for all your work, it is very much appreciated and enjoyed by all.

Jessica, Ryan, Lauren and Griffin Kelly a. k. a. J's Quarters

TRANSPORTATION

From one single truck in the early fifties to today's large modern fleet of speciality vehicles, William Day has built one of Ontario's most diverse transportation organizations, helping customers stay on the road to productivity. The Day Group is widely recognized as the transportation industry's leading innovative solution provider whether on the ground or in the air delivering dependability and reliability to valued customers like CVRD Inco, Xstrata and mining related suppliers.
