# The President's Report - Fall 2011

## COMPANIONSHIP, SAFETY, CONSERVATION

Greetings to all campers!

This year the summer weather has been nothing short of spectacular. The only set back was occasional dry period that created a forest fire hazard.

As in every summer the Picnic was the highlight event for the campers and their guests and as for so many years, the weather cooperated fully. After everything is said and done, our Picnic is for our children, grandchildren, nephews, nieces, other relatives and children of our guests. The TLCASD tent was a busy place with members buying lottery tickets, paying dues, picking up free biodegradable product samples or just chatting about our programs. The main lottery tickets were sold out and unfortunately we did not have all unsold books returned which could have been sold at the Picnic. The Art raffle was run again and I want to thank the artists that donated the prizes.

This year our Director Fishery Paul Chartrand organized our first Fish Fry which was a resounding success in every way. The Board of Directors has already approved one for next year. The members also responded really well to sale of Tilley hats. I had a misfortune of being seriously sick during the Fish Fry and could not attend, however I certainly plan to be there next year.

Our membership grew again with 18 new members and at end of October it stood at 205 paid with some more to come in. With 84% of all property owners belonging to our Association, our goal of signing all owners remains.

The newly elected Board of Directors held two meetings so far and besides ongoing regular activities have made some important decisions such as: creation of Water Quality poster; holding the Enviro-day event; hiring of professional help for website maintenance; purchasing a new high quality canopy for the Picnic and Fish Fry; initiating the planning on drainage and fence for the fish pond; buying a steel container to store all TLCASD inventory and documents and providing the preliminary approval to investigate the creation of a manual that would list important information about various government departments and other available services on the lake.

It appears that we will be again in good shape financially, enabling us to continue and improve our services to our membership.

I want to thank all members who, by purchasing lottery tickets, by paying their membership on time and by giving considerable donations they have supported all TLCASD programs. I also want to thank all our volunteers such as the Auditing, Safety, Forestry and Environmental Committees; the Picnic and Fish Fry workers and others that simply pitched in when needed.

Special thank you goes to Maddy, Annie, AJ and Emma Nikolic, and Jessica and Jasmine Talevi for decorating the new Fish Pond for the Picnic.

Last, but not least I owe great thanks to the Board of Directors. With this great team we can look forward to a bright future for the TLCASD. Have a safe winter, the best of Season and look forward the next camping season.

Slobodan ( Bob ) Nikolic, President TLCASD

# Audit Committee Report - Fall 2011

FOR THE SIX MONTHS ENDED JUNE 30, 2011

On September 13, 2011, the Audit Committee (see list below) reviewed the books and records of TLCASD for the six months ended June 30, 2011. This review included the books, records and bank statements for both the lottery account and the general account. We checked that all revenue and expenses were recorded correctly including allocation to the correct category. This was done by matching the ledger, bank records, deposit slips and receipts. We also checked the bank reconciliation. At this time we found that everything was in good standing and all items were accounted for and reconciled. The TLCASD treasurer continues to do an excellent job of keeping the records in order. The next review will be conducted in the spring of 2012 to review the books and records for the year end December 31, 2011.

# Membership Report - Fall 2011

Hello to all Campers.

The camping season is over and the weather has changed overnight, from warm and sunny to cool, cloudy and rainy. However, not to complain, summer was exceptionally warm and sunny.

At the end of October we had 205 paid members and I phoned and reminded some dozen or so members that did not pay for 2011. Depending on how many of these renew their membership, we may reach the highest membership number a second year in a row!

An official notice advising of any unpaid memberships is scheduled to be sent to those members that have not renewed by mid-November. Hopefully, this means that letters will not have to be sent, if everyone renews their membership.

I would like to welcome 18 new members who signed up this year. I hope that you will find TLCASD membership very rewarding.

Finally, I wish everyone the best of the upcoming Season.

Ljuba Nikolic, Director Membership

# Fisheries Report - Fall 2011

Found by definition, a fingerling is “a small fish about the length of a finger, or a young fish up to the end of the first year”.

By the end of June our fingerlings were ready to be released into Trout Lake and handled by a dedicated crew of volunteers. A barbequed lunch was served and everyone kept working diligently throughout the entire day. Approximately 12000 to 15000 fingerlings were released.

With everyone returning home tired that day, the idea of a two crew system came to mind. A start up crew and a finishing crew would have everyone's chore lighter, making this endeavour more enjoyable.

A clean up was started in August and will be completed by the end of September including erecting our new signs. The old bathtub was put to rest on clean up day and a new mixing device will need to be purchased for mixing our feed.

A proposed drainage survey will determine the possibilities of water running off in a ditch when draining our pond to return fingerlings to the lake. The pond perimeter was measured and we can now obtain quotes to determine the feasibility of fencing, keeping people safe and predators out of our pond. A shelving plan will also be drawn up to fit within our container for safe supply storage, eliminating clutter.

Well aware that all these items cannot be addressed at once, the preliminary studies can however be put under way in an effort to make the whole process easier and more enjoyable.

With fall now at our door steps it will soon be time to fill out applications for year 2011/2012 CFWIP Project. This project involves funding through the Ministry of Natural Resources which helps us offset certain costs associated with rearing Pickerel.

The Ministry's role goes beyond funding; their continued involvement with our lake and area lasts throughout the entire year. I received a call from the MNR's Resource Management Technician, Bruce Basso on Sept.29th to inform us that he was stocking 4000 Lake Trout that day and discussed future stocking as well. The fingerlings were a year old and seemed eager to settle in, hoping they play well with others.

I want to apologize for the unexpected delay in receiving the outback (Tilley) hats. Our supplier's hands were also tied up during this issue while the hats went on back order. I can understand everyone's disappointment and will maintain our promise to deliver.

I would like to thank everyone who participated in this years Fisheries Fish Fry and fund raiser, weather by hat and ticket sales, fish fry set up, bear presentation, cooking crew, music supply, clean up crew...etc and finally thank every individual who took the time to join us, mingling with friends and neighbours.

A deposit was already made to secure the K of C campground for our 2012 Fish Fry on the 18th, August. The deadline to purchase tickets will be Sunday the 12th, August, on a first come basis. Hope to see you there.

Being part of the Trout Lake Campers Association Sudbury District (TLCASD) enabled me to meet wonderful people from all walks of life who all have one goal in common: To protect our forest and environment, to keep our lake pure, to care for our neighbours safety, to maintain a healthy fish population and to love life on Trout Lake.

Hope all of you are enjoying the beauty that fall brings to our surrounding areas and that some of you are also anticipating the best hunt of your lives. Till we meet again fellow anglers and hunters, keep safe on land, water and ice.

Sincerely,  
Paul Chartrand  
Director Fisheries

# The Safety Report - Fall 2011

This year we continued to replace old and not repairable pumps with new ones, one at Gravelle's at far west end and one to be installed at Glen Watson's place replacing Demarais' pump we lost two years ago. Note that the broken fire pump at Camp Driftwood has not been replaced. I remind all campers to familiarize themselves with the closest pump by both the lake and road in the case of an emergency.

Next summer I am planning a "Familiarize yourself with a lake fire pump" training session at each pump location.

Installation of new lights and markers is continuing: solar lights have been installed on a gravel bed off Songbird Island and on the small island at the far west end. This summer five 2- way and two 360 solar lights were purchased and more are planned for next year including some as a replacement for old lights and others as a new installation.

Lastly, I would like to thank everyone who has helped to put the markers in during the spring and again taking them out in the fall. Your help is greatly appreciated.

Have a great winter.

Barry Zettler, Director Safety

# TROUT LAKE Enviro-Day Clean-up!

August 13th 2011

*Submitted by Barb Moxham*

The stars of this year's Enviro-Day are Jacob & Joshua Hayes. These energetic boys are the grandsons of Wendy and Doug Hayes. Grandma asked them what was the best part of their weekend visit and their reply was "picking up garbage". Well done boys!

Wendy and Doug walked about 1.5 km of Owl's Nest Road and ran into Juliette and Jean-Yves Losier who were also out collecting garbage. These two couples had never met before and explained to me that they were very happy to get to know each other. Later on the two young Hayes children walked another 1.5 km and gathered up 2 shopping bags of garbage including everything from pop, water and beer bottles to shot gun shells and cigarette butts.

These young Cherryman Road Stars did their fair share of lugging some big stuff away! Thanks goes out to Jack Suski, Bob & Ljuba Nikolic and Janet Henry. Their day began at 9am. The fellows picked up bigger items that some campers were not able to do themselves. Ljuba and Janet walked ahead collecting small garbage from along the side of the road. Jack and Bob delivered their load to the Noelville dump and the action ended at The Nikolic house for a beer and chat. Next year Ljuba gets in the picture too.....

Our Lafreniere Road group included Kevin & Cathy Stacey, Lisa Young, Mike & Lyse Keaney and Barb & Dave Moxham. Only 6 of us made it to the dock for some beer and laughs though. Lisa made it to the hospital 3 weeks later to deliver a baby boy. Not much was found on our 5km road thanks to year round surveillance. We did manage to hunt down a few cans and some butts. Our biggest feat this year was hauling out some old large rusted culverts from years-ago road building.

Bill & Carol Munro also took part in the clean-up day on Silvr'y Moon Rd. They carefully removed Pepsi cans left on tree branches by locals to mark entry and exit points to and from the bush. Bill says "If there is a story to tell, it may be that someone is still in there trying to find his way out. Too bad, so sad!" Good work Bill & Carol!

# Environmental Committee Note- 2011

As reported in the Summer Bulletin, the Committee designed and published the 'Water Quality Poster' that was delivered to every property on Trout Lake. We sincerely hope that the poster ended up on every fridge on the lake and that all campers, visitors and lodges' guests will practice the actions indicated on the poster and by doing so we can maintain and improve water quality of this precious resource.

The Committee members took Secchi readings every month, starting in May and ending in October this year. Last year we took readings in June, July and August. After a few years, these readings will indicate if there is a time related variation over this period. We can already see from these limited observations that the Secchi depths are generally increasing from Spring to Fall, but more data is needed to confirm this.

The Committee is in the forefront of the garbage clean up in and around the lake and besides our first 'Enviro-day', more action is planned for this issue.

The Board of Directors has mandated the Committee to meet with MNR and Municipality in order to monitor unorganized camping around the lake. Some of these campers have left garbage behind and also engage in noisy parties well into the night. This kind of activity needs to be monitored and action taken to prevent any pollution of the land and water that we are trying to keep pristine.

We want to thank our member Bill Munro for the generous use of his boat for the sampling and Secchi readings.

Season greetings to all!

Environment Committee

# A Voice From Z-Bay...

Here I am sitting and gazing at the vibrant colours around the Bay. Sadly thinking that fall came much too quickly. It's that scramble time when all the campers pack it up for another year. Ah! but what an amazing summer it was. The weather could not have been better and the neighbours were up often in my neck of the woods. It was easy to keep up on all the news.

Congratulations, Paul Chartrand, Director Fisheries, a job well done!  
Your preparation for arranging the Trout Lake 1st Annual Fish Fry make for a First Class Success!  
We are all looking forward to doing it again next year.  
Thank You.  
There were milestone events around the Bay again this year.

July 16/2011

Mrs. Joanne Coulter celebrated her 91st Birthday with a family barbecue.

August 12/2011

Barry Zettler and Lisa Narozanski exchanged vows in a beautiful garden wedding on Manitoulin Island.

September 15/2011

Brian and Monica Harvey became proud Grandparents again as they welcomed their second granddaughter Sarah - weighing in at 6 lbs 10oz.

September 23/2011

Bill and Marian McKnight celebrated their 62nd Wedding Anniversary. Wow!

Keep bundled up warm this winter and I will be seeing you in the spring .....

# Did You Know?

## The Common Loon AKA The Great Northern Loon

The Common Loon has four basic calls, mostly heard in the spring and summer. Each call has a different meaning.

– (Pictures Courtesy of Ljuba Nikolic)

**The Hoot:** Is not as intense or loud as the other calls and is used to keep in contact with mates, chicks and social groups residing or visiting the same lake.

**The Tremolo:** Has been described as “Insane Laughter”. This alarm call usually indicates agitation or fear and is often caused by a disturbance from people, a predator or even another loon. This is the only call that loons make in flight.

**The Wail:** Is the most frequently given in the evening or at night and can be heard for many miles. This haunting call is not an alarm but is used to keep in contact with other loons on the same or surrounding lakes.

**The Yodel:** Is only made by male loons. This is used to defend their territory especially during incubation and early chick rearing. If you hear this call please give them their space and leave their territory.

# FORESTRY COMMITTEE NOTE - FALL 2011

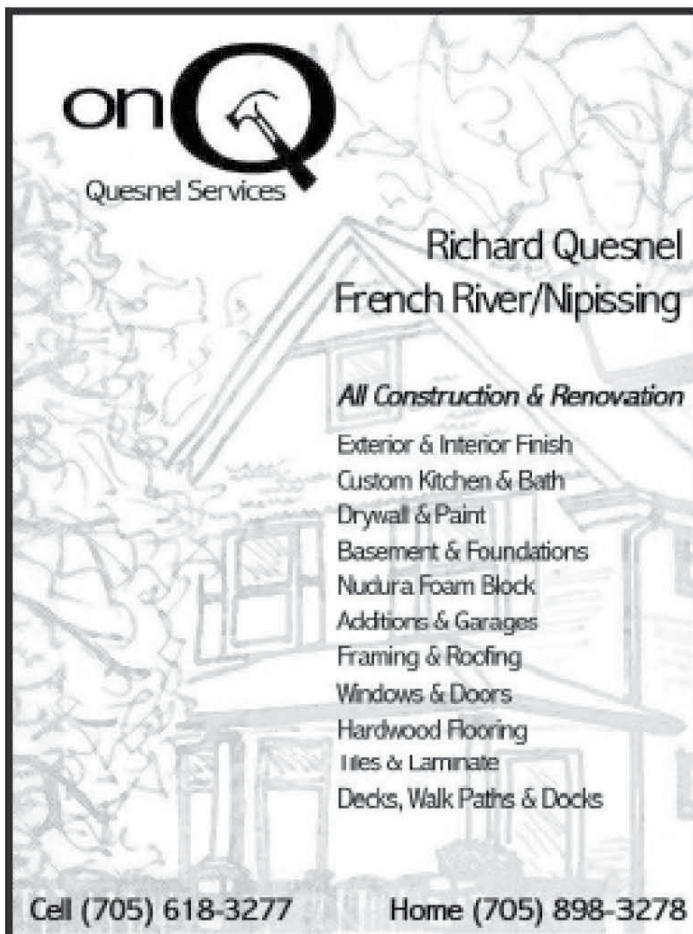

We have been advised by VFM that planned aerial spraying of the area south of Silv'ry Moon road has been cancelled due to a new assessment which indicated that the spraying was not necessary. There was manual spraying along Shaw road in an area from Sauna road to the west. We believe that manual spraying provides much better control on where the spray falls.

Chartrand Lumber plans to harvest this winter Blocks 2010-74 and 2010-75 located north of Lafreniere road. Our main concern is Block 2010-75 which is immediately to the north of the road and in proximity of the lake. Block 2010-74 is quite far from the lakeshore. The Committee members will be monitoring and inspecting these operations. Chartrand Lumber is a local family business and we did not have any problems with their operations in the past, hopefully this will continue.

The construction of the access roads is being done from end of October but the harvest will commence once the ground is frozen.

Have safe winter and the best of the Season!

Forestry Committee

## **In Dear Memory of our Cherished Trout Lake Campers**

### **Tom Pugliese**

Long time Trout Lake camper Tom Pugliese passed away peacefully on September 3rd at the age of 88. A 44 year veteran of the South shore of Trout Lake, Tom enjoyed countless days gardening, boating, berry picking and snowmobiling with his wife Rita, 5 children, many grandchildren and even great grandchildren.

Tom was a definitely a hardy, year-round camper, a skilled outdoorsman, and a talented musician. The legacy of his successful Prom Music Centre in Sudbury continues today with his 3 sons at the helm.

He will be remembered fondly for his great sense of humour, generosity and kindness.

### **Therese Villemarie**

The family announces with sorrow that Therese (74 years) passed away on June 25, 2011. Therese and her husband Henry were the owners of "Camp Driftwood Lodge" from 1979 until 1996. Therese welcomed Trout Lakers with her tiny size, deep voice and big smile.

Therese was a great cook and Trout Lake campers enjoyed her delicious homemade pizzas. Therese enjoyed ice-fishing and her favourite summer pastime was spending many hours picking blueberries. Therese's escape from Trout Lake was her weekly trip to bingo. Therese will be dearly missed by her husband Henry, her children Jack, Monique, Henry Jr., Nicole, Susan and her 14 grandchildren, seven great grandchildren along with her many Trout Lake friends.
