A VOICE FROM Z-BAY...

By Michelle Zettler
Vice-President

Greetings Fellow Trout Lake Association Members,

The TLCASD Board of Directors held its last meeting of the year on October 5th at Happy Landing Lodge. Many thanks to Wanda and Kasper for their warm hospitality and support. Needless to say the meeting was extended, interactive, animated and very productive. A sincere thank you to all of the directors for their valued input. Know that the agenda was extensive, covering numerous topics for the remainder of this year and next.

As another year sadly comes to a close, many if not all of you are busy closing up camp and or preparing for winter. That being said, I want to take this opportunity to *underscore* one of the many BENEFITS that accrue to all Trout Lake dwellers because of the association. Specifically, I want to recognize and thank the Director of Safety, Mr. Barry Zettler for ensuring that our water pumps are strategically located, easily accessible, and in excellent operating condition. As you will later read, there was a chaotic incident this summer where one of the water pumps was used to quickly and effectively put out a sauna fire before it could cause extensive damage AND ahead of the arrival of the Alban fire department. Both the Fire Chief and the Mayor have highly praised the association for its pro-active stance with regards to safety and the welfare of all residents on the lake!

On behalf of the Board, I would like to take this time to extend our warmest wishes thru the Holiday Season and to your good health...

Once again thank you for all of your support and continued patronage.

Warmest wishes,
Michelle Zettler
Vice-President

P.S. Please forward any short stories, photos, etc. ASAP for our 60th anniversary celebration in 2015!!!

Life Changing Contest

You may know the Watson family, Kyle and Paula, and their two boys, Ian and Scott who are Trout Lakers. The twins both have cerebral palsy and have wheelchairs.

Earlier this year, the Local Heroes Campaign contest was run by the National Mobility Equipment Dealers Association, The Watsons were nominated and many thousands of votes, later, were declared the winners!

This van will provide a life-changing benefit for their family as it now means both boys in wheelchairs can be transported at the same time. “It means mobility and inclusion,” said Kyle Watson. It will permit them to do camping trips and road trips, as well as day-to day outings and visits to their school. The van is an MV-1 the world’s first purpose-built SUV-type wagon that can accommodate up to two wheelchairs, and possibly workers as well.

Kyle said, “This is like winning a lottery for us”.

We definitely agree, and congratulate the Watsons and wish them the best of luck in the future.

A Fire...A Pump...

On August 2nd, 2014 a fire started in the sauna at John Keast’s property on the south shore. He raced over to Gravelle’s and picked up the fire pump and was able to put the fire out by the time the Fire Department arrived from Alban.

Fortunately, this was the brand new pump which had recently been purchased by the Association, and installed at Gravelle’s. The Fire Chief and Mayor were both very impressed with the fact that the Trout Lake Campers Association is so pro-active with keeping pumps at various locations around the lake for this very reason. The Fire Chief said that if the fire had been left to burn until his crews arrived, most likely the entire property would have burned.

Mr. Keast was very thankful and made it a point to attend the picnic to express his thanks to the Association and renewed his membership.

AN IMPORTANT NOTE ABOUT YOUR BULLETIN

Due to the high cost of postage, it now costs over \$3.00 to mail one copy of the bulletin to each member. It actually costs more for the postage than the printing costs.

We have had very little uptake on the suggestion of posting the bulletins on-line to be read by members, instead of printing and mailing copies.

The Board has discussed this further, and has decided to continue hand delivering as many bulletins as possible, especially the spring and summer issues. We will place the bulletin in a zipper sealed bag so it can be left at your door if you are not home. We will be seeking additional volunteers to help deliver these bulletins. As many campers close their camps on the Thanksgiving weekend, most of those bulletins will have to be mailed.

**Linda Lachance
Bulletin Editor**

FISHERY COMMITTEE REPORT

By Larry Hewitt, Director

Well it seems another fishing season is coming to a close. The docks are being put away, the boats removed and winterized, fishing line to replace and reels to lube. Our tackle boxes must also be sorted, cleaned and some lures repaired and or replaced... please remember to keep all of the cleaning products and lubrication greases and oils away from our waterways ...

I am looking forward already to the next years' activities - fishing, boating, etc., and hope that all of you have a very safe and happy holiday. To all a merry Christmas and happy new year ...

SAFETY REPORT—Barry Zettler

Hello everyone:

I hope all is well and everyone had an amazing summer .On behalf of all campers I would like to thank the following for their continued support by helping to place all markers and lights for everyone's safety: Bill Munro, Bill Tomlinson, Ron Piche, Chris Carrier, Jamie Strutt, Darryl Taylor, and the Gravelles and Tessiers at the west end. I hope I have not missed anyone.

I also thank all those that house are fire pumps, and offer a friendly reminder to see that they are winterized.

Congratulations to Morgan, age 10 and Karly, age 14 for their swim from the south shore to their dock in Zettler Bay approx. 1.8 km. The two made this swim in August with proud grandparents Karen and Dwight Greive cheering them on from their boat along side. Next year the girls will try from their dock to the south shore and back again. Note to all that attempt swimming across the lake, to do it like Morgan and Karly did with a boat alongside as a safety boat and for aid just in case.

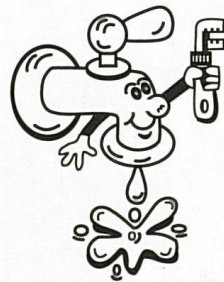

I hope all a safe and happy winter. Remember, the ice needs to be **at least 4 inches thick** to support your weight.

FISH FRY FUN!!!

A successful fish fry was held on July 12th with approximately 100 people attending.

Special thanks must go out to Juliet and Jean-Yves Losier for organizing this event.

The winners of the door prizes were: Gerry Mainville (cutting board made by Jean-Yves Losier), and Sue Stillar (cooler donated by Darlene Donaldson). Congratulations to both lucky winners!

A meeting of the minds...

TROUT LAKE 60th ANNIVERSARY

The Board of Directors has decided not to produce a proposed book on the history of Trout Lake, due to a lack of up-take from members, and the amount of time it would require.

However, we would like to include articles from the members, about the stories and history of the lake. So, if you have historic pictures and stories, feel free to send them to me. We would love to offer these stories throughout our 60th year!

In addition, Dan Taylor will be co-ordinating sales of commemorative Trout Lake clothing starting in the spring. Once the details are finalized, we'll let you know. However, he says he will be going around the lake by boat, taking orders, so if you see him, go on down to your dock!

TLCA Website: www.tlcasd.ca—We are in the process of updating this site, so check in often for more details about activities and goings-on around the lake.

In addition, issues of the bulletin will be posted there. You can then see all the photos in colour!

Where do your TLCA Membership Dollars Go?

I've recently heard about various property owners on the lake who for one reason or another, don't feel they need to be part of the Campers' Association. This makes me very sad, because perhaps they don't see the value in being a member.

So, where does your membership money go?

- ◆ It pays for the picnic, a FREE event for all campers, their families, and extended families. This includes all the organizational costs, prizes, games, lottery licences, food for the children, and so on.
- ◆ It pays for liability insurance for all the volunteers who work at TLCA events, install markers, fire pumps, take water samples, and sit on the Board of Directors.
- ◆ It pays for those wonderful fire pumps.
- ◆ It pays for the markers all around the lake, which protect you from damaging your boat or being killed or injured by hitting the rocks.
- ◆ It pays for the pickerel rearing program, to improve the fishery.
- ◆ It pays for our volunteers to monitor and advocate on forestry issues around the lake. Without the strong Forestry Committee we have had, the forest buffers around the lake would have been much, much smaller and many more trees would be gone.
- ◆ It gives us a voice at FOCA an advocacy group for campers associations across the province. Some of FOCA's issues are property tax assessment, government regulations, communication towers, and so on.
- ◆ It gives us a more powerful voice at the Municipality of French River, where decisions are made affecting our lake and properties.
- ◆ It pays for the printing and mailing of this Bulletin, 3 times as year, as well as membership cards, and other communications from the Board.
- ◆ While you may not always agree with all the decisions of the Board of Directors, the politics, or personalities, it is important that the WORK of the Association continue and we need your support to do that.

If you haven't renewed your membership, please reconsider the value of the work we do on your behalf and support YOUR Association, by renewing TODAY.

We also sincerely appreciate those members who make an additional donation when you renew your membership. It all helps to keep the Association working! Thank you all!

Our Condolences

Lida Gervias—The Trout Lake Campers Association Board and members would like to express our sincere condolences to the family of Lida Gervais. She was the wife of Jean-Paul Gervais (predeceased) and mother of Yolande Langlois (Adrian), Roger (Rosie), Mireille Tuttle (Bob), and Madeleine Nichols (Tim). This long-time Trout Lake family has a camp in Musky Bay on the south shore.

HUNTING SAFETY

As hunting season is in full swing, this is just a reminder to hunters to respect private property. Shooting a partridge in someone's driveway, is both unsafe and unethical. Complaints have been heard from various property owners that this has been occurring.

Remember, be safe out there, and respect other campers and hunters. Be sure to clearly identify your target before pulling the trigger. So as not to get lost, don't forget your survival kit.

4 - Rules of Firearm Safety

- T** - Treat every firearm as if it is loaded
- A** - Always point the muzzle in a safe direction
- B** - Be certain of your target & what's beyond
- K** - Keep your finger outside the trigger guard until ready to shoot

MEMBERSHIP COMMITTEE REPORT

Hello, everyone. The end of the year is fast approaching and it's time to pay membership dues for 2014. According to our up to date records 191 members have paid 2014 leaving 16 that did not paid yet. I am contacting members to remind them about unpaid dues and will in November sent official notices to those that will not have paid by that time.

Hope you will have wonderful Holiday season and safe winter.

ENVIRONMENT & FORESTRY REPORT— Bob Nikolic, Director

Greetings to all campers! We are now far into the fall season. Scientifically, fall ends on Dec. 21 every year but as all Canadians know by mid-November we do feel like it is the beginning of winter. Right now most of the leaves are down and some mornings there is frost on the ground. Pretty soon the temperatures will be below 0C most of the day.

On environmental matters, the last Sechi disc reading was done at the end of September and results sent in. We will probably have to wait until mid-February for 2014 Phosphorus results. The lake water level has been, due to the enormous amount of rain, exceptionally high all year. At this time the level resembles what would be the highest level in spring. During spring, summer and fall there was a continuous input of water from streams around the lake and possibly a high load of nutrients from swamps entering the lake. This may cause our Phosphorus level to stay the same as last year or even go higher. I would dare to say that increased Phosphorus values are not the result of campers activities. I see more and more properties are having proper waste disposal systems installed, from classic tank and field beds to modern all enclosed systems. This is bound to help water quality.

As far as Forestry activity is concerned we have received notice that Chartrand Lumber will be harvesting Block 75 which is accessed from Lafreniere road on the north side of east end of the lake. As usual we will be monitoring this harvest and do not expect any problems from this operator. The forest harvest around the lake has been at low level for last few years.

I have advised the Board of Directors that I recommend a merger of Environment and Forestry positions. In 2003 these matters have been under Environmental Chairperson but due to the large workload in Forestry, a new Forestry position was created. In the last few years, the work on Forestry has been at a fairly low level. This may be due to the fact that we have managed to establish proper criteria for harvest around the lake. The work we started in 2003 has resulted in much larger no harvest zones around the lake and incoming streams, as well as along access roads. At the same time, a no herbicide spraying area of 120 meters along the shore and behind cottage lots has been in force. During the last few years there has been little harvesting close to the lake and we expect that this will continue due to the fact that we convinced MNR and loggers that Trout Lake deserves extra protection. It is the only lake trout lake east of highway 69 and south of highway 17 in Sudbury district, not to mention having very good water quality and beautiful vistas. The MNR has frozen all further lot developments on the lake in order to protect the lake and its surroundings.

Wishing you all happy Holiday season and safe winter!

Did You Know?

Garry and Donna Murphy proudly announce the birth of their first great grandchild. Philip Allan Cox the 4th born to Philip and Brenna Cox on Aug 5th in Leduc Alberta. Also congratulations to the first time happy grandparents Daniel and Linda Lafond

Michelle Zettler outfished the famous fisherman, Charlie Lumbis, in a friendly contest. Here she is, receiving her “trophy”, while Charlie sheds a tear... Michelle caught two 26” pike. By the way, she also outfished her partner, Ron Sampson LOL!

A little birdie told me that the Paul Chartrand group of moose hunters was successful. Judging by the number of hunters I saw on Shaw Road, I can't believe any moose would survive. However, after the big hunt, in one trip out, 5 moose were seen!

DO YOU KNOW WHAT WD-40 CAN BE USED FOR? A MILLION USES, I'M SURE...

(Article supplied by Donna Murphy)

I had a neighbor who bought a new pickup. I got up very early one Sunday morning and saw that someone had spray painted red all around the sides of this beige truck (for some unknown reason). I went over, woke him up, and told him the bad news. He was very upset and was trying to figure out what to do ... Probably nothing until Monday morning, since nothing was open. Another neighbor came out and told him to get his WD-40 and clean it off. It removed the unwanted paint beautifully and did not harm his paint job that was on the truck. I was impressed!

WD-40 who knew?

"Water Displacement #40".

The product began from a search for a rust preventative solvent and degreaser to protect missile parts.

WD-40 was created in 1953, by three technicians at the San Diego Rocket Chemical Company.

Its name comes from the project that was to find a 'Water Displacement' Compound.

They were finally successful for a formulation, with their fortieth attempt, thus WD-40.

The 'Convair Company' bought it in bulk to protect their atlas missile parts.

Ken East (one of the original founders) says there is nothing in WD-40 that would hurt you.

When you read the 'shower door' part, try it.

It's the first thing that has ever cleaned that spotty shower door.

If yours is plastic, it works just as well as on glass.

It's a miracle!

Then try it on your stove-top.

It's now shinier than it's ever been.

You'll be amazed.

WD-40 Uses:

1. Protects silver from tarnishing.
2. Removes road tar and grime from cars.
3. Cleans and lubricates guitar strings.
4. Gives floor that 'just-waxed' sheen without making them slippery.
5. Keeps the flies off of Cows, Horses, and other Farm Critters, as well. (Ya gotta love this one!!!)
6. Restores and cleans chalkboards.
7. Removes lipstick stains.
8. Loosens stubborn zippers.
9. Untangles jewelry chains.
10. Removes stains from stainless steel sinks.
11. Removes dirt and grime from the barbecue grill.
12. Keeps ceramic/terracotta garden pots from oxidizing.
13. Removes tomato stains from clothing.
14. Keeps glass shower doors free of water spots.
15. Camouflages scratches in ceramic and marble floors.

WD-40 (Continued)

16. Keeps scissors working smoothly.
17. Lubricates noisy door hinges on both home and vehicles doors.
18. It removes that nasty tar and scuff marks from the kitchen flooring. It doesn't seem to harm the finish and you won't have to scrub nearly as hard to get them off. Just remember to open some windows if you have a lot of marks.
19. Remove those nasty bug guts that will eat away the finish on your car if not removed quickly!
20. Gives a children's playground gym slide a shine for a super fast slide.
21. Lubricates gearshift and mower deck lever for ease of handling on riding mowers.
22. Rids kids rocking chair and swings of squeaky noises.
23. Lubricates tracks in sticking home windows and makes them easier to open.
24. Spraying an umbrella stem makes it easier to open and close.
25. Restores and cleans padded leather dashboards in vehicles, as well as vinyl bumpers.
26. Restores and cleans roof racks on vehicles.
27. Lubricates and stops squeaks in electric fans.
28. Lubricates wheel sprockets on tricycles, wagons, and bicycles for easy handling.
29. Lubricates fan belts on washers and dryers and keeps them running smoothly.
30. Keeps rust from forming on saws and saw blades, and other tools.
31. Removes grease splatters from stove-tops.
32. Keeps bathroom mirror from fogging.
33. Lubricates prosthetic limbs.
34. Keeps pigeons off the balcony (they hate the smell).
35. Removes all traces of duct tape.
36. Folks even spray it on their arms, hands, and knees to relieve arthritis pain.
37. Florida 's favorite use is: 'cleans and removes love bugs from grills and bumpers.'
38. The favorite use in the state of New York, it protects the Statue of Liberty from the elements.
39. WD-40 attracts fish. Spray a little on live bait or lures and you will be catching the big one in no time. Also, it's a lot cheaper than the chemical attractants that are made for just that purpose. Keep in mind though, using some chemical laced baits or lures for fishing are not allowed in some states.
40. Use it for fire ant bites. It takes the sting away immediately and stops the itch.
41. It is great for removing crayon from walls. Spray it on the marks and wipe with a clean rag.
42. Also, if you've discovered that your teenage daughter has washed and dried a tube of lipstick with a load of laundry, saturate the lipstick spots with WD-40 and rewash. Presto! The lipstick is gone!
43. If you spray it inside a wet distributor cap, it will displace the moisture, allowing the engine to start.

P.S.

**As for that Basic, Main Ingredient.....
Well.... it's FISH OIL....**

Now This Is Definitely Worth SHARING!!

SEGUIN HARDWARE & BUILDING SUPPLIES LTD.
