SAFETY REPORT—Barry Zettler

Hello everyone:

Carbon Monoxide Alarms

FOCA reminds everyone that, effective April 15, 2015, you must install a carbon monoxide (CO) alarm adjacent to all sleeping areas of your home and your cottage if it has a fuel-burning appliance, attached garage or a fireplace.

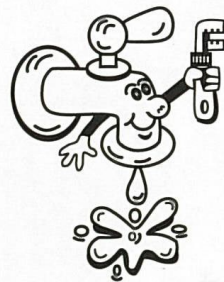

Starting up a wood stove, or any appliance, after months left idle, is a time for particular care.

Get details about CO alarm installation here: <http://bit.ly/1GV1GSz> and protect your family from the 'silent killer

FISHERY REPORT—Larry Hewitt

Happy 2015 to all campers. As of the writing of this letter, the pickerel have already spawned and their eggs have been collected.

We will be looking for some new and returning fisheries Committee members. If you don't have much time, maybe you could volunteer to help on an as-needed or occasional basis. Please let me know if you are interested so that I can add your name to our list. Call me or e-mail—(phone is preferred as I do not have internet at camp).

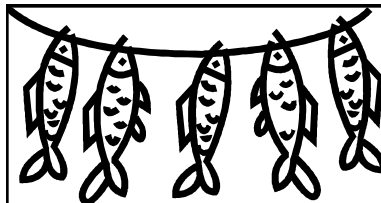

A lot of work was done last year by many people and I don't know all of them I'm sure, but...I would like to thank the following people for their help. In no particular order and if I missed you, I apologize:

Tim Stillar, Ken Cull, Terry Gauthier, Richard Saul, George Zanette, Bill Munro, Art Wismer, Dave Guay, Bob Wylie, John Rudzinski, Dave Boluk, Cathy Boluk, Bill Tomlinson, Sylvia Tomlinson, Bob Tuttle and the fine people at the Wolsely Bay hatchery.

Best of luck fishing to everyone fishing at the lake this summer.

Pickerel

Letter to the Editor

A Bit of History

February 20, 2007

Dear Karen:

You are my last contact for the bulletin so if you don't take care of it any more maybe you can pass this on.

I found this note about the past TLCA meetings and thought I would send it to you in case you had not seen it before

An excerpt from the Trout Lake Campers Meeting held at the Canadian Legion Building in Sudbury on Thursday, September 27th, 1955. Eighteen members were in attendance

Chairman:	Harry Harrower
President Elect:	Ed Clare
Secretary Treasurer:	Ed Zettler

- 1) Moved by Harold Heale & seconded by Peter Boluk that the organization formed be known as **TROUT LAKE CAMPERS ASSOCIATION**.
- 2) Moved by Bob Harrower & seconded by George Carley that an annual membership fee of one dollar per member be made.

The main topic of discussion was that unfinished portion of the road stretching a mile and a quarter or thereabouts, leading from the Delamere Rd. which is satisfactory to the shore of Trout Lake. It was decided that a volunteer work gang spend time on this road the coming weekend of October 1st and 2nd 1955, bridging and filling where necessary; preparatory to gravelling, and to report at the following meeting their progress and further requirements to make the road more passable.

Road Committee:	Jim Gardner	Harold Heale (later
	George Carley	replaced by Bob Harrower)
	Sam Grosart	

Submitted by Wendy Gravelle

FOCA Report—Decision on Hydro One’s 2015-2019 Distribution Rates Application

March 12, 2015 – The Ontario Energy Board (OEB) today released the final decision on the rate proposal EB-2013-0416/EB-2014-0247. FOCA was one of the Intervenor in this most recent Hydro One rate application, pertaining to electricity distribution rates effective January 1, 2015.

The approved rates are based on the OEB’s determination of the revenues required by Hydro One to cover the costs of operating and maintaining the distribution system at a level of service that meets the needs of its customers. It also determines the proportion of revenue to be recovered from each [customer rate class](#).

Hydro One had requested a 29% increase to distribution rates over 5 years starting January 1, 2015.

[The OEB Decision](#) (72-pages)

See the [FOCA OEB Submission to Hydro One Rate Submission EB20130416](#) (October 2014) (continued on next page)

Key Implications:

- **The major decision by the OEB was to collapse the Seasonal Class. Customers are being reclassified according to density.**
- **Reclassification will have cost implications for all customers. Some will experience decreases. Many customers see significant increases. Specific cost implications from the rate class realignment (to be implemented for January 1, 2016) will be determined over the coming months. Hydro One has until August to propose how to phase in any increases, and FOCA will remain vigilant during this period to represent our members' interests.**
- **OEB agree with FOCA and others that Hydro One's customer consultation in relation to its application was deficient from the perspective of Seasonal ratepayers.**
- **With respect to Hydro One's proposed increased vegetation management budget (including the costs for tree and brush clearing), the OEB finds that a reduction of \$39 million to the total vegetation management costs over the 2015 to 2017 period is appropriate. It is the OEB's view that Hydro One needs to manage this program more cost effectively, and to show continuous improvement in these areas.**

The OEB did not consider Hydro One's application to be sufficiently aligned with the objectives of their "RRFE policy" (see footnote below) to approve the application as presented. The OEB thusly denied Hydro One's request for five year rate setting, but did approve a three-year (2015, 2016, 2017) distribution rate increase of 19%.

A copy of the decision and other related information is available on the OEB's website at www.oeb.gov.on.ca.

Some further background on electricity pricing in Ontario:

- Electrical utilities are regulated in Ontario by the Ontario Energy Board (OEB)
- Hydro One is the primary LDC (local distribution company) that serves Ontario waterfront communities
- FOCA participates in Hydro One rate hearings on behalf of our members, and FOCA has members in every rate class
- Utilities are required to collect (charge) revenues that offset (equal) their cost of delivering electricity from generating stations across the Province to your home or business via the high voltage (transmission) and low voltage (distribution) electricity systems

[Delivery charges are only one aspect of your bill](#) (though for low-use customers it can be a significant part of the overall bill). [Electricity prices are set separately by the OEB.](#)

- These costs, along with government-imposed regulations and obligations, are rising, as is the cost of maintaining the aging infrastructure

Did You Know?

TRADING POST – This is where you can buy, sell or trade items. Cost to list is \$10.00/issue

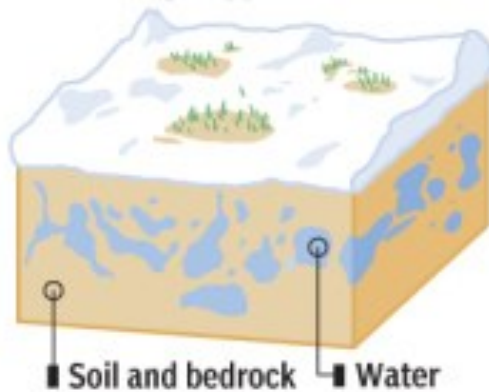

FROST QUAKEs—We experienced these at Trout Lake over the winter. There were huge cracking sounds in the ground, caused by the extreme cold. See the official explanation below.

WHAT IS A FROST QUAKE?

Frost quakes, also known as cryoseisms, are non-tectonic events brought on by winter weather. They are usually identified by a loud noise in the night with no apparent cause.

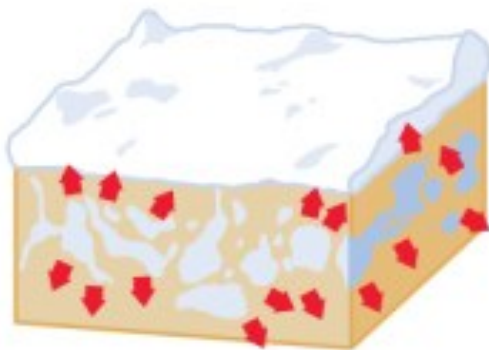

1. After a heavy rainstorm or a thawing of ice or snow, water seeps into the soil and bedrock, becoming trapped.

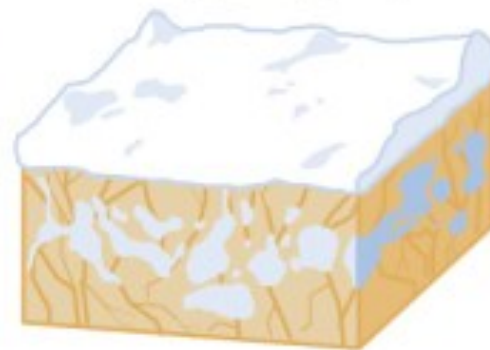

2. When temperatures fall rapidly, the moisture trapped in the soil and bedrock begins to freeze.

3. As the moisture freezes, it expands, putting pressure on the surrounding soil and bedrock.

4. Eventually the stress from the expanding ice is too much and the soil and bedrock will crack creating a loud noise and occasionally shaking the ground.

ANDREW BARR / NATIONAL POST

In Memoriam

Barriault, Oliver – (1942 – 2015) In loving memory of Oliver Barriault, 72 years young, who passed away peacefully at his home in Val Caron on March 12, 2015 surrounded by his family.

First love to his bride Judy (née Tilbury), with whom he shared 51 years creating ever lasting memories. Oliver was not only Judy's very best friend, her confidant, lover and husband, he was her soul mate. He was a devoted family man, happiest when embracing life with Judy, their children and grand-children by their side at the family cottage on Trout Lake. Dear father of Nancy (predeceased), Victor (Chantal Boulay), Larry (Terri), and Chantal (Scott Craig). Cherished père to his grand-children Aaron, Krysten, Jenna, Sarah and Olivia; who meant the world to him.

He was predeceased by his parents Wilfred and Corinne, and brothers Michel and Daniel. He is survived by his siblings Colette (Cleo Seguin), Rolly, Norm (Gaetanne), Ron (Joan). Special brother-in-law to June Westell (Peter), Colette Barriault, Guy Tilbury (Terry), Moe Tilbury (Annette) and Gerry Tilbury (Pauline) and fondly remembered by his close friends and protégée Gerry Courtemanche (Pauline) and Regan Pilatzke (Kim). He was regarded as a father figure, by many nephews and nieces.

Oliver and Judy enjoyed a long and very happy life. They loved to travel but mostly treasured spending their time at camp with family and friends. If they weren't working side by side, you could find them jumping off the dock or out on a pontoon boat ride exploring Trout Lake. He always found time for work and play. Morning and evening walks of the camp road to dinosaur rock or down Wiggle Road were a daily ritual, closing the day off with a sauna and an evening relaxing on the deck.

He had a natural ability to turn any negative into a positive, as he would say, "Every day is a great day." He was extremely proud of his family and encouraged them to be the very best they could be. Not only was he a #1 dad, he was their #1 fan. He was proud of every one of their accomplishments no matter what their choices in life.

When Oliver was not at camp you would find him puttering in his garage, enjoying a coffee with his friends at Tim Hortons or treating his grand-children at Dairy Queen. Oliver was an experienced and accomplished hunter, gifted educator, mentor and exceptional individual. For over fifty years he instructed the Ontario Hunter Education and Safety Program and was a master instructor of the Canadian Firearms Safety Course since its inception. To many, he was known as the "moose guy" or the "bear man" and sought after as a speaker for seminars and wildlife conferences throughout the Province. He will be sadly missed by the boys in the hunting/fishing party, cousins, friends and colleagues.

Born in Sudbury, he worked as a welder specialist-trainer at INCO, retiring in 1988 with over 30 years of service. In retirement he instructed and mentored students in the welding trade at College Boréal and Le Conseil Scolaire Catholique du Nouvel Ontario.

Oliver was truly a wonderful person with a warm smile and kind words for everyone he met. A life well lived, taken to soon. He will be forever remembered by those whose lives he touched.
