# A NOTE FROM THE PRESIDENT

I'm writing this after spending Thanksgiving weekend at Trout Lake. The weather was autumn perfection: sunny and cool, and the fall colours were spectacular. The sad part was that we were packing things up and getting the camp ready for winter. Unfortunately we won't be up to the lake many more times before next year and it's hard to say good bye to 2016 after the incredible summer we had. I always call camp my "happy place". As a sign that hangs in my kitchen says, "if you're lucky enough to have a place at the lake, you're lucky enough".

Looking back on what your association accomplished in 2016 I feel confident in saying that the association is well positioned as it moves into another year. In the past year we have recruited five new board members and have filled all Board positions. Work is ongoing in safety, fishery, forestry and environment. Both the picnic and fish fry were well attended events and I'm happy to say that the weather co-operated which is always my biggest concern even though that's the one thing we can't do anything about. My thanks to the many volunteers who help make the events a success and who work on our various initiatives from maintaining fire pumps to working at the fish pond and all other association activities. The association is only as strong as its members make it.

In 2016 the Board took the initiative to strengthen its links with the French River Citizens Association and met with them in August. With a municipal election slated for 2018 we believe it would be helpful for our membership to receive information about local municipal affairs. Please see the report later in the bulletin for more information.

Lastly, I'm happy to welcome James MacMillan to the Board as Vice President. This was the last Board position to fill and I applaud James for stepping forward to volunteer. I look forward to his and all Board members' insight and perspective as we continue our work in 2017.

Until next spring I wish you a very enjoyable fall and winter. See you next year!

Debbie Lanktree  
[416-660-5343](tel:416-660-5343)

**Visit our website at  
[www.tlcsd.ca](http://www.tlcsd.ca) for updates.**

## **We'd like to extend a welcome to our new Vice-President, James MacMillan.**

Hello to the membership and executives of TLCA.

Thank you to the people that recently nominated me to the position of Vice President. My name is James MacMillan, I have been on the lake for the last 15 years. My wife Doris and I purchased Jack and Muriel Carl's camp in 2001.

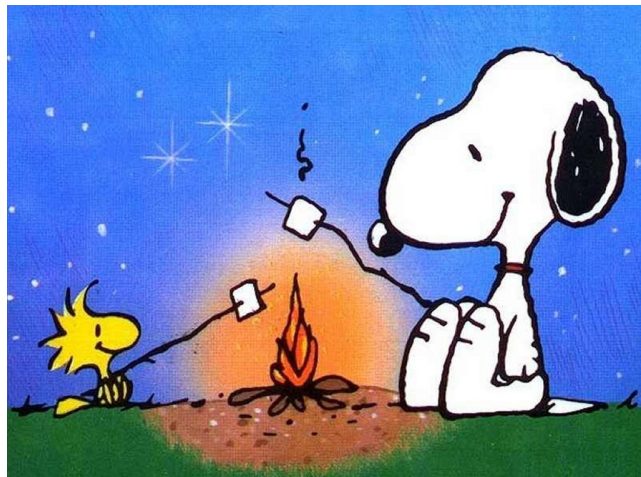

I have spent most of my life on a lake or two. I was on Lake Wahnapiatae till I was 16 at my parent's camp. Then spent ten years camping on Duck Lake, in Port Loring with my growing family. So I know and appreciate what a great natural resource forests, water, fish and wildlife are. This was one of the reasons I decided to get more involved with our association. I have gotten to know many people from the lake over the years and have heard how great the membership has been, going way back to when CB Radio's where the only way they communicated and the Annual TLCA Picnics were actually held on Picnic Island.

Therefore, my goal is to help generate, promote and progressively maintain friendly relationships among the cottage owners, increase the interest of all cottage owners for the betterment of the Lake Environment, promote safe and responsible operation of all watercraft and related activities, to encourage the environmentally sustainable use of the lake, its roadways, public landings and surrounding forests to prevent destruction or harm to the water purity, wildlife, fish or the forest.

Of course my position on the board is that of Vice President which holds some unique responsibilities, which include assisting our President (Deb Lanktree) in carrying out the wishes of the Association when requested to do so by the President. I will also act in the position of the President when she is unable to act, in consultation with the Executive Committee.

In closing I would like to wish all our membership a healthy and prosperous fall, winter, and spring. I hope the permanent residents as well as the campers using our Frozen Trout Lake enjoy and embrace our great fourth snowy season.

Cheers,  
James MacMillan

## Introducing the FRENCH RIVER CITIZEN'S ASSOCIATION

Submitted by Debbie Lanktree

On August 23<sup>rd</sup>, Linda Lachance and I met with representatives of the French River Citizens' Association to discuss issues of mutual interest and potential areas of collaboration.

The mission of the French River Citizens' Association (FRCA) is as follows:

- To promote democracy in the municipal affairs of the Municipality of French River;
- To interest citizens in municipal affairs;
- To promote the Municipality;
- To follow Municipal affairs;
- To participate and comment on them;
- To require members of the Municipal Council, its committees and its staff to fulfill their mandate with responsibility, respect of its citizens, the law, adoption and observance of fair by-laws, rules and procedures of the Municipality in order to serve the citizens of this Municipality with competence and fairness
- To see that elected officials and staff prepare and follow reasonable budgets and use taxation and grant funds judiciously in order to ensure stability, progress and reasonable taxes
- To encourage Council to consult the population on major issues and to focus on community needs

The majority of property owners on Trout Lake pay their property taxes to the Municipality of French River (MFR). As a result, decisions made by MFR Council have an impact on most of us. In my role as President of the Trout Lake Campers' Association I have been contacted by our members on issues related to rising property taxes, waste disposal and road maintenance as well as how council decides to spend its operating and capital budgets. Our association has limited resources and limited expertise in this area. However, by collaborating with the FRCA we will be able to bring you information on what is happening on the municipal affairs front.

It is not the intention of Trout Lake Campers' Association to become heavily involved in municipal politics however we do find ourselves dealing with a variety of issues that involve the municipality on a regular basis. In addition, a municipal election is slated for 2018. By providing our members with communications from FRCA it is our hope that the property owners on Trout Lake will know who to speak to when they have concerns and will be better informed when they cast their vote.

We will be featuring communications from FRCA in our bulletin on a regular basis. You can also access their articles on our website [www.tlscad.ca](http://www.tlscad.ca). If you wish to read more about FRCA or contact them directly please visit their website at [www.frca-acrf.sitew.ca](http://www.frca-acrf.sitew.ca) or their facebook page. Membership is \$20. You can email them for a membership form at [frca.acrf@gmail.com](mailto:frca.acrf@gmail.com)

## ENVIRONMENT & FORESTRY REPORT—

Bob Nikolic, Director

Greetings to all Trout Lake Campers. While this report is being written the summer is still with us! It's October 7 and the temperature is hovering around 20C but it won't last long the forecast for next day is only 12C which is, by the way normal for this time of the year. Nevertheless, other than a lack of rain the summer has been very pleasant.

In September we carried out for the first time a very important and comprehensive water quality survey of the lake. The Association rented a multi-parameter testing instrument and 60m (~ 200 FT ) cable to be able to reach the deepest spots in the lake. Along entire lake a total of 32 sites were surveyed, 19 (odd numbered 1-35 ) sites 1 km (~ 3,300 ft) apart along the line in the middle of the lake and 13 (odd numbered SHB 1-23) sites in the shallow bays. Depending on depth the measurement swere taken down at surface; 0.5 m (~ 1.6 ft ); 1.0 m (~ 3.3 ft) and 2.0 m (~ 6.6 ft) intervals. In order to make sure that the instrument did not get damaged, the last measurement, with a couple of exceptions, was about 1 m above the bottom. The parameters measured were temperature; conductivity; % saturated dissolved oxygen; actual dissolved oxygen DO; PH value and REDOX. The tanks are due to Dr. Charles Ramcharan of L.U. and Fresh Water Ecology Unit in Sudbury who gave us very valuable advice as far as horizontal and vertical spacing, parameters etc. It took four days to complete the survey and I want to thank Guy Springay and my wife Ljuba because without them the survey would not have been done.

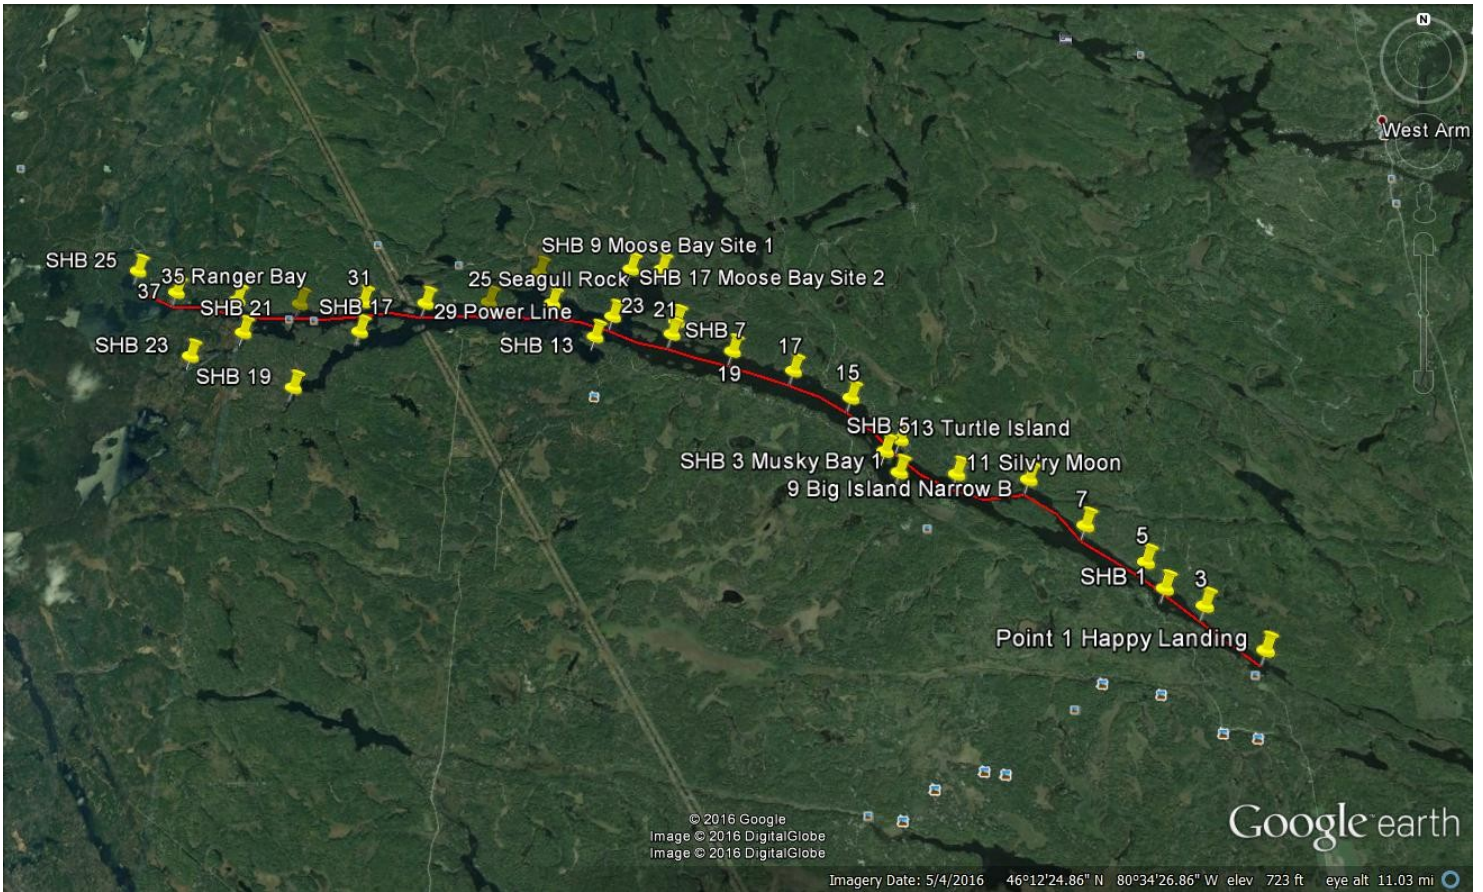

While the interpretation and impact of data will take some months, and we will need help with that, some simple things are easy to see from the data. As most of the campers already know is that in relation to depth the lake has two parts, eastern stretching from Happy Landing to a point between Dave Taylor's camp on north shore and big rocky hill on south shore, and western part from there to the west end of the lake. Along the survey line eastern part average depth is 12 m (~ 40 ft) and the thermocline (the boundary between warm and cold water) is at mostly about 6 m (~ 20 ft). It is important to note that DO level drastically declines in the cold water below the thermocline indicating that during the summer, lake trout in this area are under pretty high stress. The average depth in the western part is 26 m (~ 85 ft) and thermocline is at about 7 m (~ 23 ft). At two sites we had measurements at 44 m (~ 144 ft) and these fell in the deepest spots in the lake. Below the thermocline depletion of dissolved oxygen is very small and this confirms what many lake fishermen already knew that this area is the best place for lake trout. According to studies done on lake trout, the required level of DO for healthy population is 7 mg/l and the lower limit is at 6 mg/l. Most of the sites in western part have values of 6 – 7.5 mg/l indicating that in this area at present time can support a relatively healthy lake trout population, at least as far as DO is concerned. Under 4 mg/l DO is mortal zone for lake trout. Once the detailed analysis of the data is done we will publish more conclusions about the survey.

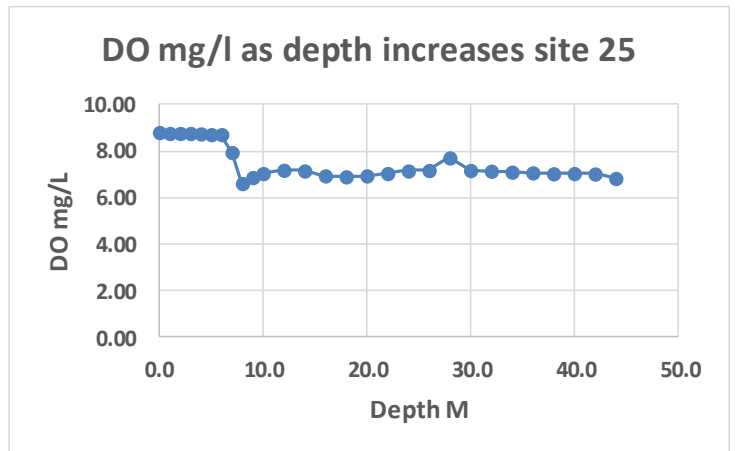

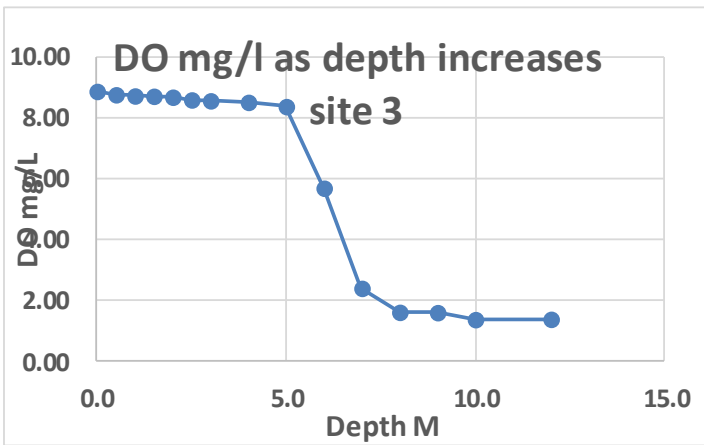

The last environmental task of the year is the final Secchi disc reading to be done in mid-October. The summer reading was done in mid-August.

It was previously reported that harvest is going on by Chartrand and Lahaie. Lahaie is harvesting close to power line on South shore, and Chartrand built new road at about 9 km mark on Shaw road and harvest is located north of the road and quite far away from the lake. Brian Smith visited Lahaie's site and I visited Chartrand area. No issues were detected with Lahaie's harvest and some minor garbage was seen at Chartrand's harvest area. We are planning one last visit to these sites before winter.

Enjoy the clean water and beautiful forest around you – so many people around the world do not have a chance to experience this.

Slobodan (Bob) Nikolic, Director Environment and Forestry

## SAFETY REPORT—Darryl Taylor

Hello fellow campers. I hope you enjoyed the hot, dry, beautiful summer.

As of August 31st I can confirm that all fire pumps were in good running condition. Thank you to all of the pump stewards.

We have purchased some spare marker lights and now have them on standby. Next season if you notice any marker light problems please contact me immediately.

The safety committee is seeking 1 or 2 volunteers to look after the markers located between Big Island and Happy Landing. If you are available to help please contact me. The job consists of putting the markers in Victoria Day weekend and taking them out Thanksgiving weekend. Any help would be appreciated.

Have a safe winter. Camp safe and ride safe.

Darryl Taylor  
[705-662-3834](tel:705-662-3834)

## MEMBERSHIP REPORT-FALL 2016

Hello, everyone. The leaves are falling and it's time to wrap up another year at the lake.

At the time of writing we have collected 190 memberships. My target was 200 but it's not too late. If you haven't paid your 2016 membership yet I urge you to do so at your earliest convenience. If you can't find your form and would like another one please contact me. I will be making one last effort to reach everyone who hasn't paid before the year is out. Your support is much appreciated!

To all members, I trust you will renew your membership in 2017. Membership dues will remain at \$25. If you have a new neighbour on the lake please mention the association to them and let me know if they are interested in becoming a member.

Also, a reminder to all members to please notify me if your address changes so we can ensure the Bulletin continues to reach you.

Hope you have a great winter,

Richard Lanktree, Director Membership

### Calling all photographers!

Trout Lake Calendar and Photo Contest

Plans are underway to develop a Trout Lake calendar featuring photos from the lake. Photos will be selected from those submitted to us. Please forward your favourite photos (limit of one for each month) to [dlanktree@hotmail.ca](mailto:dlanktree@hotmail.ca)

Photos must be in high resolution (600 dpi) JPG format. Please provide your name, contact information and the month the photo was taken, with your submission. **Deadline for submission**

**is: April 30, 2016.**

The plan is to start selling these calendars at the picnic next year.

If you wish to be on the panel of judges please let me know. Also, if anyone has experience creating calendars online and would like to volunteer to help us we'd love to hear from you.

FISH FRY—A great time was had by all. Here are pics of our wonderful chefs.

## 2016 LOTTERY WINNERS

### MAIN LOTTERY

- FIRST PRIZE: IPad Air WiFi 16 GB  
Art Wismer-Ticket No. 1277
- SECOND PRIZE: 10 ft. Kayak DAG ZYDECO  
Al Giroux-Ticket No. 0319
- THIRD PRIZE: Mustang Inflatable Life Jacket  
Melanie Kerekes-Ticket No. 0574
- 50/50 DRAW: Heather Cowley-Ticket No. 772171

### ART DRAW

1. Lazy Susan, donated by Jackie Gravelle - Winner Doug Netzke Ticket No. 237537
2. Wine Glasses, donated by Debbie Lanktree, painted by Jackie Gravelle -Winner Chantel Gravelle Ticket No. 237561
3. Seascape, donated by Janet Henry - Winner Karen Flett Ticket No. 237595
4. Picture, donated by Janet Henry - Winner Karen Flett Ticket No. 237586
5. Cross Stitched Butterflies, donated by Linda Lachance- Winner Cynthia Gobin Ticket No. 237585

**YOUNGEST CAMPERS**— were twins Madeline and Abbigail Cull born May 9, 2016

**OLDEST CAMPER**—Don Mayer, aged 84

**JELLY BEAN GUESSING**— The winner of the jelly bean guessing contest was Dominik Wojtas who guessed 631. The actual amount was 657. Guesses ranged from 100 to 10,000. After winning Dominik was spotted sharing his jelly beans with other kids at the picnic. Well done Dominik!

## Cottage-Closing Time Checklist from FOCA

Cottages and summer homes are **most vulnerable to thieves and subject to damage or vandalism in the off-season**—from the week following Thanksgiving to the weeks prior to Victoria Day—especially if the owners are not using them regularly in the fall, winter or spring.

With the Labour Day weekend finished, many cottage and seasonal property owners now begin to consider the closure and winterizing of their properties. **The Federation of Ontario Cottagers' Associations (FOCA)** wants to help you protect your investment, year-round.

Remember, the cost of owning a cottage or summer property could include the frustration and irritation of repairing damage and replacing stolen property, if no one is living there or checking it regularly.

If you own a cottage or other rural seasonal property, it's time to consider the following:

- Secure your windows and doors. Close window curtains or blinds, and put up shutters to protect the interior from marauders (animal or human).
- Leave no valuables at the cottage (electronics, personal items, tools) unless you're prepared to lose them. Lock up sporting goods that you decide must stay year-round (fishing rods & equipment, water skis, toys). Record the serial numbers of anything of value left behind. Marking your valuables with a drivers' license # can help deter a thief or aid in property recovery.
- Remove all food, and anything that may attract animals.
- Pack up and take home all alcohol.
- Don't leave firearms or weapons at the cottage.

### ADDITIONAL END-OF-SEASON TIPS:

- If you are leaving vehicles, boats, ATVs or snow machines, make sure they're winterized and secure. Leave nothing on trailers unless it is locked or disabled.
- Designate a year-round contact or key-holder for: alarms, thefts, weather damage or animal problems.
- Make a list of where everything is and make copies. Store one copy on your home computer and put a copy with items that will go back up to the cottage on your next trip.
- If you have propane appliances make sure they are properly shut down.
- Drain all water pipes, water heaters and fixtures, to avoid freezing.
- Defrost and unplug the refrigerator.

## Wire Bristled BBQ Brushes

In the recent news there were reports of people having pieces of wire lodged in their throats, from the wire-bristled BBQ grill brush. The wires would get caught in the food. Definitely worse than a fish bone!

Safer alternatives to using a wire bristled brush on your grill:

Cut an onion in half and stick a knife in it to use as a handle. Rub the grill with it.

Use a pumice stone. Wet it, and rub away. The stone will wear away in grooves which fit the wires on your grill.

Use a ball of tin foil to scrub, by holding it with tongs.

**The Canadian Candle** (also commonly known as a “Swedish torch”) is one of the simplest and efficient ways to create a contained campfire. Rather than starting a fire using a traditional log cabin or teepee shape, a single log of wood is split into four pieces. Those pieces are then loosely bundled together using wire, then the area in between is filled with tinder and small wood.

The result is a reliable, easy-to-start, contained campfire that burns remarkably like a candle. It's also excellent for cooking on, and less of a fire hazard than traditional fires, as the logs holding the fire together create a natural container.

**Be Safe on Your Quad**—There were at least 4 quad accidents on Cherriman Road last year. It can happen to you! So be sure to wear your helmet and drive carefully. Hunters, you are required to wear orange, and an orange (covered) helmet on the quad. If using a gun rack on the front, ensure the gun is pointing towards the bush, not the oncoming traffic. Kids have to be 12 if they want to drive on a trail. And you have to be 16, with a valid driver's licence, if you want to even touch any part of a road. "These kids can ride an ATV but they can't cross a road."

# WINTER STORAGE

(This article supplied by one of our advertisers)

Well it is inevitable, fall is here and with it comes your boat storage for the winter. Now for some this is quite easy and for others it can be a little challenging. Here are a few tips to make things easier.

First start off by pulling your boat out of the water, this is a good time to check the hull and rear transom for any damages. (*Fast Clean* hull wash is a good product to clean the bottom of your boat and or pontoons). After a good inspection is done and you are satisfied that there is no damage, you may proceed to winterize the engine.

Now there are several things to consider. Number one you want to stabilize your fuel. This can be done after you pull your boat from the water or for optimum results, you can do this before your last ride of the season. This will ensure that all the fuel in the system is treated. Next you will want to change the oil (FOUR STROKE ENGINES ONLY) After you have completed the oil change, you move on to the lower unit gear lube. When draining your gear lube this is a good time to notice if there is any foreign materials in the oil such as water, (oil will be a milky color) or metal shavings. If you find any of these in the oil it means it is time to have your lower unit serviced.

After all is done it is also a good time to wash the engine thoroughly. This is a good time to look for any damage to the prop and the lower unit. This may be the time to have your skeg repaired and send your prop to be repaired by a good qualified prop repair shop. Lastly remove your batteries and store in a warm dry area. A trickle charger is a good idea to maintain your battery.

If at any time this becomes a bit much for you, you may always go to professional for a full winterizing of your boat and motor.

**NOTE: Inboard/Outboards require a totally different method of winterizing.**

For more information on this and other services contact Bob at Marine Tech Plus at 705-898-1863.

Now that your boat is safely tucked away for the winter, go ahead and enjoy the beautiful colors.

The logo for Marine Tech Plus features the word "Marine" in a blue, cursive script font. Below it, a thick red horizontal line spans the width of the text. Underneath the line, the words "TECH PLUS" are written in a blue, bold, sans-serif font. To the right of the text, a vertical red line extends upwards from the horizontal line, forming a partial crosshair.

## History was Made! 5 Generations Visiting Songbird Island—From Jim Smith

I was born in Sudbury went to St Charles College on Pine St. Lived in Gatchell, but moved to and have lived in Toronto for the last 50+ years. A retired principal with the Toronto Catholic District School Board of Education.

My father bought the Island in 1985. We named it 'Songbird Island' after my wife Dona who sang semi-professionally for years and is also a retired Special Education teacher.

My dad (Howard) was the 1st generation, me (James) the 2nd, my son (Jimmy), the 3rd, then the grand children (4) the 4th and Jasper my Great Grandson the 5th.

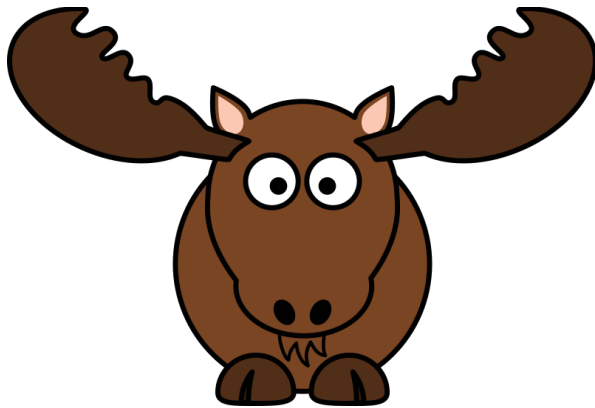

We also have a new Great Granddaughter who will visit next summer!

Don't you just love it!

Our dream to share it with the family forever (I pray)!

We live in Maple now just north of Toronto.

I have been retired for 21 years now and never a dull moment, loving it!

A wife is scrambling eggs when her husband bursts into the kitchen. "Careful," he cries. "Be Careful! You're cooking too many at once. Too many! Scramble them! Now! We need more butter. They're going to stick! Careful! Now scramble them again! Hurry up! Are you crazy? Don't forget to salt them. You always forget to salt them. Use the salt. Use the salt! The salt!"

The wife turns and asks, "What is wrong with you?"  
Her husband calmly replies, "I wanted to show you what it feels like when I'm driving."

## IN MEMORIAM

**Eila Annikki Virtanen** passed away on July 16 2016 with family by her side at Finlandia Retirement Home following a lengthy battle with Vascular Dementia. Closest to her heart was her family, friends and most importantly her sweetheart and husband of 67 years, Viljo Ilmari Virtanen. Eila was born in Finland 1928 where she met Viljo at a community dance and they remained favourite dance partners from then on. Her active lifestyle, love of the outdoors and busy social calendar kept Eila young, beautiful, and smiling until the end. She was a part of the Trout Lake Campers association and the Ladies of Kaleva. She volunteered the best of herself and donated her extensive craftwork to the Finnish community around her. She was a master pulla baker, seamstress, gardener and rug maker sharing these passions with her family. Children always received handmade knit socks and mittens for Christmas. Eila is survived by an extensive family in Canada and Finland. Wife to Viljo. Mother to Kimmo and Ray. Mother-in-Law to Kathy and Liette. Mummu to Darcy, Weslin, Ellenita, Maegan, Miranda. Great Grandmother to Cadence and Eli. Beloved sister to Hellevi and siblings Elvi, Eino, Esko, and Eeti. Special aunt and great aunt to many nieces and nephews.

**Alcide Pepin-** In Loving Memory of Alcide Pepin, March 5th, 1938 - August 9th, 2016. Beloved husband of Yvonne (Brady) Pepin. Loving father of Ken (Colleen), Paul (Linda), Monique (André Roberge), Darla (Rene Laframboise) and David (Angela). Cherished grandfather of Michael, Pamela, Tracy, Brian, Patrick, Melanie, Vincent, Madison and 9 great- grandchildren. Dear son of Rolland and Florence Pepin both predeceased. Dear brother of Germaine, Jean (Stella), Rolland Jr., Yvette (Roger Malbeuf), Raymond, Rita and Donald. Born in Blezard Township, he married Yvonne in Val Caron in 1961. He graduated from Sudbury Secondary at 17 years of age. Alcide worked for 44 years, first at the Canadian National Bank, the Foundation Company, the CNR, INCO at Levack in carpentry and then the final 25 years as an auto parts distributor with Kenco Industry, retiring in 1999. Alcide enjoyed woodworking, sports, the outdoors, gardening vegetables and pickling.

### **Rita Irene Fluelling—1921-2016**

It is with great sadness that we announce the passing this winter of long time Trout Lake resident Rita Fluelling. Rita was a Trout Lake camper for more than 56 years. Rita and Jim Fluelling were two of the original “north shore” campers, buying land in 1960 and building a family camp in 1962. They both cherished time at the lake with their 5 children, who grew up summering there.

Rita lost here beloved Jim in 1977, but continued on the family traditions established there so many years before. She spent countless hours clearing the beach from rocks, singing to her 12 grandchildren as she rocked them on the front porch and preparing family meals. Her favourite spot was always on the screened in front porch overlooking the lake and the magnificent sunsets. Her last trip to Trout Lake came in the summer of 2009 at the age of 88.

Even though our hearts are sad without our cherished Grandma here at Trout Lake, the camp continues to remain a Fluelling favourite to her sons, daughters, grandchildren and now 7 great grandchildren. Forever in our hearts, Grandma.
