# NOTE FROM THE PRESIDENT—Richard Lanktree

Greetings to all of the Trout Lake Association Members

It was a wonderful summer at Trout Lake and we are blessed with being able to share this wonderful lake with friends and family, How did fall arrive so quickly and summer end so abruptly? Fall, the best time of the year has passed with many of my friends saying it is the best time of the year. Winter has arrived with ice on the lake and snow on the ground as I write this note to you today.

This is our final Bulletin of the year and what a very busy year it has been for all of our volunteers and TLCASD (Trout Lake Campers Association Sudbury District) Board members. Two additional issues, the proposed ten year Sudbury Forest Management Plan (FMP) for 2020-2030 and the Happy Summer Village Development Plan have really stretched our Board members' time and commitment. I personally wish to thank all of them, listed on the opposite page. The many hours they contribute to the ongoing success of the Association is greatly appreciated. (Well, maybe not enough). Our Directors, the heavy lifters, represent your interests in our many activities including environment, forestry, safety, fisheries, membership, and the bulletins, as well as the annual picnic that many of you are so familiar with. The Directors' reports are included in the following pages.

The Trout Lake annual picnic was a tremendous success this year with great attendance and fabulous weather. The Association provided the BBQ lunch and all the Field and Lake events ran smoothly with the leadership of Darryl and Natalie Taylor. The addition of two bouncy castles was a big hit with the children. All the details are in this communication. The real bonus was that there were no fire issues this year as was the case last year. The feedback from all the participants was very positive and everyone from the most senior to junior had a great time. Once again it takes many volunteers to make this annual picnic a success, you know who you are and Thank You very much.

This summer it came to the Board's attention that the new owners of Happy Summer Village (formerly Happy Landing) have a plan to develop and lease back up to 140 cottages ( mobile homes ) on the newly acquired property. As the plan was shared many of our members started expressing their concerns with respect to the size and scope of the proposed development. A new committee "The Lake Development and Review Committee of the TLCASD" was established. The members are listed in the Bulletin along with a detailed report authored by the committee chair Linda Lachance. This is a follow up communication to the letter distributed to all members a few weeks ago. We are pleased with the initial support on the ""Go Fund Me" campaign. Approximately 40 of our 202 members have made a donation. This is very much appreciated and needed as we do not have budget for these types of issues. .

A survey was also distributed to all members both through email and regular mail. We have received many responses. If you have not completed the survey please do so. Having your up to date email assists us with communicating so please if you did not receive the survey by email, send an update to our Membership Director.

The Trout Lake Facebook page has also been a great communication tool for us. Please use it along with our website.

Read and enjoy this final Bulletin of the year. Have a great winter and holiday season.

# ENVIRONMENT & FORESTRY REPORT

## Guy Springgay, Director

**Help keep our Lake and Lands clean. Please don't litter.**

### **Environment: Guy Springgay**

The second set of Secchi readings were taken in late July. Unfortunately the third set we normally take in the fall could not be done this year. The two sets of readings from six locations on the lake have been sent to Lake Partners Ontario. The Spring bulletin will present the graphs for Secchi as well as Phosphorous and Calcium, which were taken in the spring.

The Board has approved doing additional new sampling for E.Coli Chlorophyll A, and Total Coliforms. These will be taken next year at various location closer to the shore.

Wishing everyone a great fall and winter and I look forward to seeing everyone around the lake next year.

### **Forestry: Fall 2019**

On October 29 Kim Fyfe and Bob Nikolic went to the open house presentation for the Draft Plan for the 2020-2023 Forest Management Plan. This is the final Draft version presented by VFM (Vermillion Forest Management) and the Plan now goes for approval by the MNRF with expected approval early in 2020.

The Association has reviewed the plan for our area and found out that the most contentious issue has not been resolved. The Plan still proposes a drastic reduction of harvest time restriction which currently is from May 1 until after October Thanksgiving weekend and changing it to only include July and August. The Association representatives spent about 45 minutes pointing out the probable very negative consequences of such a change. We strongly believe that this change would have a serious impact on the safety of our roads in the spring and fall.

The following reasons have been given for this change from the VFM:

- A desire by a local mill to keep employees working all year and a need for extra time to harvest.
- Aligning the policy for Trout Lake with other water bodies, to meet the same harvesting timelines

It is our position that expanding work days at the cost of safety to many people is not the right thing to do.

The Association will have two months to request a meeting with the MNRF Sudbury District Manager to present our case. At present we are examining the FMP in detail to see if there are some other changes that will also need to be commented on at that meeting. It is expected that the meeting will take place by the end of November and the Manager's decision will be probably known sometime in January. If the Association proceed further, the next step will be appeal to the Northeast Region Regional Director in South Porcupine.

## REPORT ON THE HAPPY SUMMER VILLAGE ISSUE

In early September, the Board met with a group of members who were very concerned about this proposed development. The Board created the Lake Development Review Committee chaired by Linda Lachance, and the members who had expressed concern, to work on this issue.

To date, the committee has met 5 times, and has undertaken a great deal of research (hundreds of hours) into the Planning Act, Zoning Laws, and environmental implications on this development. In 1977 the MNR produced a Lake Capacity Assessment Report which showed that at that time the lake was over-developed. MNR then froze all development on the lake. The requirements of the Official Plan address this situation by requiring new studies, etc., to evaluate proposals such as the one being proposed. However, we have learned that due to the fact that the municipality adopted a Zoning By-law in 2014 which permits certain developments, depending on how they are defined, without recourse to the Planning Act, it appears as if MNR's decision could be ignored, and in fact the developer might be able to bypass all the safeguards to development which are established under the Planning Act.

The committee developed a comprehensive letter which was sent to the municipality and all agencies with regulations applicable to this matter. In addition, we consulted with a lawyer familiar with municipal matters for his comments.

In our submission we stated that this represents a 54% increase over the approximately 240 homes and camps currently on the lake. Trout Lake was determined to be above its development capacity in 1977 in a report by MNR and all development has been frozen since that time. We submitted case law examples where similar applications were turned down, or forced to go through the complete Official Plan process.

We submit that the massive re-development which is proposed constitutes a "new development" under the Planning Act and therefore should go through all the regulatory reviews. We also believe that the mobile trailers to be installed are not permitted by definition, under the Planning Act (they should be classified as mobile homes, not camper trailers). The environmental impacts on Trout Lake will be significant and could endanger the unique qualities of this trout and pickerel fishery which MNR has determined to be especially significant. We have numerous other concerns and case law to back up our position.

In addition, we believe this development which council appears to support, will in fact cost the municipality more money than it can generate via tax revenue. It will put an increased strain on the sewage lagoon facilities, the landfill, and police and fire services. And to permit this development to proceed and risk the environmental quality of Trout Lake makes it a risky move which could have severe consequences. This is a community whose primary industry is tourism, and whose stated Mission and Vision are to support tourism yet, the environmental values which support tourism are in danger of not being considered.

If we can get Council to consider this proposal as a new application under The Planning Act, then the required safeguards within the act will come into play. The developer will need to undertake a new **Lake Impact Assessment Study** to determine:

a) the physical suitability of the land for the proposed use(s) with respect to the susceptibility of the site

- to flooding or erosion and the suitability of the site for building purposes;
- b) the appropriateness of the site considering access to existing and proposed public roads, including visibility and grade;
- c) the ability to provide adequate potable water, sewage management/disposal facilities and other services as deemed appropriate by the Planning Board and/or the applicable local municipality;
- d) that any archaeological or cultural heritage resources that may be identified on the subject lands are properly protected;
- e) the environmental impact of the proposed development on significant natural features and functions both on the site and on land adjacent to the site;"

We intend to meet with MNRF and Ministry of the Environment to press them to step up and make their concerns heard in this issue. Once the developer has actually made his application, then we will know better how things will proceed based on the municipal and Planning Board decisions.

You will have received an **email & mail questionnaire** in order for us to assess the level of concern and support on this issue, and to allow us to capture demographics on the lake. We strongly urge you to participate before the end of November.

Dealing with an issue of this complexity is outside the general activities of the Campers Association. The Association does not have the financial resources it may need to pay experts to assist us or represent us when necessary.

In summary, at this point there is no way to know whether we can win this argument. We may be calling on all Trout Lakers to stand up and be heard. We will need your support.

Our best case scenario looks like this:

The municipality and Planning Board decide that the developer needs to submit an amendment to the Zoning By-law to permit mobile homes (not camper trailers). Then as part of an application, the studies mentioned previously would be required. Comments would also be required from ministries such as MNRF, Ministry of the Environment, Parks & Conservation, Municipal Affairs & Housing, etc. Then the comments of MNRF regarding their lake capacity study from 1977 could be brought to bear.

Our worst case scenario would be that the municipality and Planning Board determine an OP amendment is not required, and the application can be dealt with under the municipal Zoning By-law. Then we would have to consider proceeding with other means to oppose this.

The developer also must make an application to the Ministry of Environment for a permit for a septic system, and other things to support the development. There is a public review stage of this process and we will be expressing our concerns.

The committee needs your support. Please get in touch, voice your concerns, write to your councillor and support the fund-raising campaign. Any questions can be directed to [tlcasd@gmail.com](mailto:tlcasd@gmail.com).

Therefore, the Committee has launched a **GoFundMe campaign** to ask campers to contribute financially to this cause. We currently have raised 60% of our goal, with participation of only 36 members! Please, consider contributing to this cause. You can contribute online here <https://www.gofundme.com/f/trout-lake-ca-development-fund> or you can mail a cheque to the TLCASD, P.O. Box 315, Noelville, ON P0M 2N0.

The Lake Development Review Committee members are:

Kevin Stacey	Guy Desmarais
Rob Payette	Dave Moxham
Linda Lachance (Chair)	Jack Suski
Karen & Don Finucane	Lyse & Mike Keane
Richard Lanktree (ex-officio)	

You can contact any committee member to discuss the issue or **email us at [tlcasd@gmail.com](mailto:tlcasd@gmail.com)**.

## **LAKE MANAGEMENT PLAN FOR TROUT LAKE**

Another very important part of this issue is the need for us to develop a Lake Management Plan to serve as a resource guide for assessing future development. This is a complex project to undertake. As outlined in The Planning Act:

**Lake Management Plans** will include a number of components including:

- 1) A lake capacity assessment to determine the carrying capacity for existing and new development and the opportunities to improve or enhance water quality
- 2) An inventory of existing and proposed development by type, characteristics of sewage and water services
- 3) A shoreline capability assessment to determine lands which are suitable for development given such features as slope, vegetation cover, depth of overburden, the presence sensitive natural heritage features and areas
- 4) A resource inventory of the lakes and tributaries that could be impacted
- 5) An assessment of fish habitat
- 6) The nature of public access to and use of the lake for aquatic and boating activities
- 7) Road access to shoreline development
- 8) Flood plain management
- 9) Shoreline management principles that provide for appropriate development setbacks and the retention/conservation or restoration of natural features
- 10) Septic tank re-inspection
- 11) Criteria for controlling seasonal to permanent conversions and commercial to residential conversions
- 12) Implementation and monitoring
- 13) Public education
- 14) Lake management plans will be prepared as a partnership initiative with preference being placed on lakes and rivers experiencing development pressures.

MNRF has a comprehensive guide on it's website on how to develop such a plan in consultation with the municipality, and this will be something we must undertake in the near future. We will need assistance from environmental experts to complete this project. If you are willing to get involved with this project, please contact us at [TLCASD@gmail.com](mailto:TLCASD@gmail.com)

# FISHERY—Deven Stillar

Hello fishing enthusiasts!

Well another season of open water fishing has come and gone. I hope everyone had a wonderful season on the water and everyone was able to catch that monster they were after. If not, remember there's always next year! (I've been saying that for 28 years now!) I consider this past season to be very successful for Trout Lake and the Fishery Department. We had a great stocking effort this year, lots of interest at the meetings and a positive response to the article style we've added to the bulletin. I'd like to thank everyone who's had a hand in our successful year. From the MNR, to the meeting attendees & the people who read the articles. You all had a hand in making our successful season possible so I thank you for that! I'm looking forward to next spring where we look to roll out some new ideas and initiatives to help maintain and improve the fish population and ecosystem in our beautiful lake! Wishing everyone a Merry Christmas & a Happy New Year. Please remember to be safe when on the ice this winter.

Sincerely,

The Fishery Committee

**We have a Facebook Page!** The Association now has a page where we can share news, information and photos quickly amongst our members. Please visit often and "like" our page, so you will be kept up to date on lake happenings. Many of you are using the page to share news and photos around the lake.

## New Schedule for Noelville Landfill Site

<b>New</b>	<b>Monday</b>	<b>8 am - 12 (Noon)</b>
	<b>Tuesday</b>	<b>CLOSED</b>
	Wednesday	7 am - 5 pm
	Thursday	7 am - 5 pm
<b>New</b>	<b>Friday</b>	<b>12 (noon) - 5 pm</b>
	Saturday	7 am - 5 pm
	<b>Sunday</b>	<b>CLOSED</b>

Note: The blue bins are for residential waste only. Items such as construction materials, tires, and large items must be brought to the landfill site. There is a \$325 fine for dumping inappropriate items at the bins.

## SAFETY REPORT—Darryl Taylor

Thank you to the volunteers for your help with the fire pumps, markers and lights. Your continued support is greatly appreciated.

If there is anyone who would like to become a volunteer and help out with random jobs your help would be greatly appreciated.

Please make sure if you are boating in the late fall to be safe, as the markers are removed on Thanksgiving weekend or later.

Have a safe winter.

Drive Safe / Ride Safe

## MEMBERSHIP REPORT—Debbie Lanktree

Greetings Trout Lake Campers!

Thank you again to all Association members for your support.

As of today our membership count is 198, exactly where we were at this time last year.

Reminder letters to the few who have not yet renewed have been mailed and I remain optimistic that we will exceed 200 members before the year is out.

Have a great winter!

## TROUT LAKE PICNIC—RAFFLE PRIZE WINNERS

The lucky winners were:

1st Prize Paddle Board	Millana Marcon
2nd Prize—Floating Party Island	Richard Jones
3rd Prize—Mantle Clock	Jeanine Young

Youngest Camper—Lennox Little Born July 12th, 2018  
Oldest Camper—Rose Gravelle

Jelly Bean Guessing—Zoe Smith who guessed 427 (there were 432 in the jar!)

Horseshoe Tournament—Winners were Tim Stillar & Jacques Mayer

50/50 Draw—Winner Chantal Butler who won \$223.50

Art Raffle— Loon Decanter—Jodie Springgay  
Loon Teapot & Mugs—Kathy Eady  
Rug hooked picture of ship - Doug Netzke  
Watercolour Painting—M. Seguin  
Framed Print—Doug Netzke  
Loon Ornament—Doug Netzke

We would especially like to thank our art raffle donors and artists:  
Jackie Gravelle, Janet Henry, Ljuba & Bob Nikolic, and Linda Lachance.

We would like to thank Vernon Heeneman of Happy Summer Village for donating the use of the grounds for the picnic.

We are also extremely grateful to all of the businesses and individuals who supported the Association with a donation for the door prize draws at the picnic. We couldn't do it without your support!

## **Some behind the scenes work, your Association has been doing:**

- ◆ We were asked to remove our trailer from Happy Summer Village property. The trailer houses all of our materials to set up the picnic.

Arrangements were made to have a tow truck pick up the trailer and bring it to the fish pond location for storage. The canoes were stored at Stillar's camp as they offered use of their canoe rack. Dave and Larry Moxham and Bob Nikolic handled the move and finalized everything at both locations. We would like to thank the staff at Happy Summer Village for their assistance with this move.

Larry also reported that Bob and he went over to the fish pond and put the trailer on blocks, removed valuables and tent poles that were stored under the trailer to the container and installed a heavy duty hasp lock on the trailer door. They cleaned out the container for the trailer items and then disposed of the debris. The container will need a proper wash out in the spring so we did not store the tent canvas or t-shirts there until that happens. There are some materials in the sea-can container which we no longer require for the fish pond and we hope to sell them to recoup some of the costs. The items include: heavy duty filter cloth, a large Bush Buggy, gas self-priming pump, a pond cultivator(?), and special piping/tubing.

Thank you all for a job well done!

- ◆ 4 Board of Directors Meetings, and the AGM were held this year & one meeting was held with Vermilion Forest Management regarding the 2020-2030 Forest Management Plan—we started a letter writing campaign with regard to this issue. This issue will likely be moved to the next level of review and our request regarding the window for logging operations has not been approved.
- ◆ The Lake Development & Review Committee was established and 6 meetings have been held so far. Two letters were sent to all members regarding the Happy Summer Village development.
- ◆ The picnic was held and was enjoyed by all.
- ◆ The calendar contest was judged and the calendar assembled and printed in time for the picnic. We still have some copies available for sale. This initiative will be reviewed as to whether to continue it due to lack of participation and low sales.
- ◆ Three bulletins were sent out this year.
- ◆ All the volunteers who manage the safety markers and lights on the lake put them in and out, and maintain them like clockwork. Fire pumps too!
- ◆ Our Facebook page has been kept current with local events, issues of concern to campers, photographs, etc.

# TROUT LAKE TALES

- You may have noticed red pine trees dying around the lake. If you are out in the boat, it is extremely noticeable and you can pick out the brown tree tops quite easily. We have lost more than a dozen trees on our property alone. We were startled to notice that once a tree started browning at the top, in less than 2 weeks, it was completely dead.

We asked the Ministry of Natural Resources & Forestry to come and assess the problem. The Forester came and determined that the trees are being attacked by Pine Engraver Beetles. If you scrape away some of the bark of an infected tree, you will see a network of channels chewed into the wood. There is no treatment for these beetles, and it appears there is quite an infestation going on around the lake.

The Forester indicated that these beetles tend to attack trees which are already stressed. The trees could have been stressed by the two recent very dry summers we experienced. In addition, changes in drainage or covering the roots of the trees with additional soil can impact the trees. We are very upset to lose this many beautiful trees.

- A little birdie told me that Garry and Rose Gravelle celebrated their 50th Anniversary in September. Their children gifted them a wooden plaque showing the map & contours of the lake.
- Debbie Lanktree and Jim Pettigrew celebrated an amazing milestone this summer. It was 30 years since Debbie had a kidney transplant, with Jim's kidney. Remember folks, sign your donor cards and talk to your families about your wishes!
- The Municipality of French River undertook a complete reconstruction of Zettler Bay Road this summer. The new road is amazing! Municipal Council approved approximately \$650,000 in capital road improvements for the 2019 budget year. The roads approved by tender including applicable taxes were as follows:

<b>Zettler Bay Road</b>	<b>\$227,390</b>
Whip-poor-will Road	\$131,170
North Channel Road	\$168,448
Turenne Road (section of)	\$107,996

The sources of funding came from the following sources:

Ontario Government (OCIF Formula Based Funding)	\$ 57,000
Federal Government ( Regular Gas Tax Funding)	\$161,510
Federal Government ( One-time top up Funding)	\$155,566
Municipal Capital Project Funding	\$276,000 Kudos to the municipality!

## IN MEMORIAM

**SANDRA "SANDY" MOORE**—In Loving Memory of Sandra Lynn "Sandy" Moore (nee Magee) 78 years Peacefully Saturday September 14th, 2019 at Health Sciences North. Beloved wife of Paul Moore predeceased. Loving mother of Bryan, Douglas (wife Sandra) and Carin (husband Jacques Lefebvre). Cherished grandmother of Andre (Lauren), Liam, Jean-Jacques and Tanis. Dear daughter of Orval and Evelyn (Viney) Magee both predeceased. Dear sister of Kenneth Magee (wife Barbara). Sandra was an elementary school teacher for over 30 years with the Sudbury Board of Education. She enjoyed spending time at her camp on Trout Lake. She was happiest when in the company of her family and friends. She will be remembered for her kind and loving demeanor by all who knew and loved her.

## Boater Safety Regulations - If you are stopped by the police this is what you need to know:

1. Personal flotation devices (PFDs) and life jackets are the first thing that police officers are looking for. There needs to be a PFD for every person on board, they have to fit properly, show no wear or be missing fasteners. They have to be readily accessible (if you're not actually wearing yours) and if it's an inflatable life vest, users must be age 16 or older and you must be wearing it. The fine applies to every person on board who is not in compliance. Typically, the fine for not having the right life jacket is \$240 in Ontario.
2. Having open liquor or cannabis on board will attract another fine. You are allowed to transport these items, but they have to be sealed, stowed, and out of sight. An open container of either liquor or cannabis is not allowed on board a boat. (The only times when you can "consume" on your boat is when you are moored or anchored and you have a permanent washroom, cooking and sleeping accommodations onboard.) Also, remember, **people in kayaks, canoes, paddle boards, and other watercraft are covered under this regulation.** The operator can be fined \$215 and everyone else onboard can also be charged \$125 per person.
3. The operator must have their valid Pleasure Craft Operator's Card (PCOC) with them in the boat and the fine is \$305 for not having the card onboard (even if you have one at home). It's also best to have your other ID with you too. The PCOC card does not have a photo and the other ID can help establish that you are the person who holds that PCOC card. Fine: \$305.
4. A spotter is required when using your boat for "towed sports" (water skiing, wake boarding, wake surfing, tubing, etc.) and that spotter must be considered reliable or competent. Obviously, you can't safely drive the boat and watch the skier at the same time. Another part of this regulation is that there must be an available seat in the boat for every person being towed in case you need to bring them into the boat. If you are towing with a personal watercraft, it will need to be a three-seater and you can only tow one person. You have a driver, spotter and one rider—that's three seats minimum. The fine is \$305.
5. Powered vessels require a Pleasure Craft License and the Transport Canada vessel license numbers are to be properly displayed on the bow of the vessel. You are also required to have the registration—on board—and the vessel's ownership (or copies) too. Not having the license registration earns you a fine of \$305.

If you are stopped, officers will usually check for the full range of required safety equipment and this is clearly laid out in the Transport Canada Boating Safety Guide. And don't forget that when boating in larger bodies of water where you could be more than a mile (1.85 km) from shore, the police will be looking for distress flares and other safety equipment. One thing they often check - the flashlight in your safety kit must work. Often they get wet and don't work. One trick we use is to enclose the flashlight in a water-proof container like a food sealer bag (not a zip-lock). This ensures it will work when needed.

Remember, the police are not looking to spoil your day. The regulations are there to protect you and your passengers, but fines are a strong incentive to follow the law.
