NOTE FROM THE PRESIDENT—Linda Lachance

Welcome back Trout Lakers!

As I write this, spring has finally arrived. The ice went out in the last week of April despite winter wanting to keep coming back with cold spells interspersed with warm ones. The birds are nesting now, spring peepers are peeping, and the bugs are starting. And so has forest fire season. Please be careful and respect the Fire Ban now in place.

There are more campers at their places around the lake and I can see many more lights on in the evenings and even a few boats are out. Your Association is hoping we can have a more “normal” year than the last two.

We’re planning the Annual General Meeting to be an outdoor meeting at Silvery Moon Lodge, on Sunday, July 10th, 10 a.m.

The best news is that we are planning to have a **picnic !!!!** this summer which will also be at Silvery Moon on July 31st, 2022—Covid permitting. Stay tuned for more details. We are always seeking volunteers to assist with this event.

At present we have two critical vacancies on the Board which really need to be filled. One is the Vice-President position, and the other is the Director Bulletin. I cannot continue to hold 3 positions. If you care about Trout Lake, please step up and lend us your expertise.

The Lake Development Review Committee continues to meet and plan it’s strategy regarding the opposition to the development. We have met with municipal officials and an excellent exchange of ideas occurred. They have assured us that no additional development over the approved 37 units will occur without an application for “New Development”. This means that an application will have to be made under the Official Plan. This will then trigger the requirements for a lake impact assessment study and other things outlined in the plan. The appeal of the municipal Trailer Licencing By-law is proceeding, likely in mid-summer. The municipality is also in the process of updating it’s Official Plan and there will be public information/comment sessions held. You are all encouraged to participate in these sessions to help modify the OP to better protect our best resource, the lakes and rivers here.

The rapid increase in the number of trailers at HSV being rented out as short-term rentals (Air B & Bs) is concerning. This is also happening on privately owned properties around the lake. Municipal by-laws are being developed to address these issues. Lakers concerned as many of these guests have no knowledge or ties to the lake, and may not respect the area we treasure so much. There are plans to develop an information brochure for the lodges to give to their campers.

That’s it for now. Happy fishing, safe boating, and enjoy your days at the lake.

Linda (the Prez)

Troutlakecasd@gmail.com

Joel Desmarais

Happy Spring Fellow Campers,

As always I would like to thank all the volunteers who continue to help out every season with our safety markers and emergency fire pumps. We are always looking for more volun-

teers to help lighten the load for our current volunteers, please contact me if you would like to help out in any way.

With warmer weather comes prime conditions for forest fires. Ice and snow has just melted a few weeks ago and we have already had a few bush fires this spring and we are expecting more to come through the summer. Already we have had a very close call on the lake that did not result in any property damage thanks to one of our emergency fire pumps close by. I know all work very hard to maintain our properties, and take great pride in our cottages and homes. Having said that we also need to protect our beautiful properties from the risks of forest fires and our emergency fire pumps are an essential part of protecting our lake. I would like to take this time to remind all of our volunteers who have a fire pump on their property to test their pump and hoses in the coming weeks to make sure they are running well and no damage to the hoses. If any pumps are not running or if hoses are damaged please contact me for replacements. Parts and equipment are easy to fix or replace but our cottages and homes and the memories they hold are not so easily replaceable.

As our community continues to grow, so does the traffic on our lake with a large variety of water vessels ranging from kayaks/canoes to fishing boats to wakeboard boats to pontoons. Please remember to share the lake with others and practice safe boat driving distances from one another. Always consider the effect of your boats wake on our shorelines and others around you. New this season will be "Please Slow Down" signs that will be installed at the narrows of the west end of the lake and the narrows leading into Happy Summer Village at the east end of the lake. These are both very tight, traffic heavy areas that pose extra risk to boaters and swimmers. Please take extra caution when going through these areas and slow down with minimal wake. A reminder to all boaters that Ontario regulations dictate that a province-wide-shoreline speed restriction of 10 km/h within 30 meters of shore is in effect whether posted or not. These regulations can be enforced by OPP, MNR and the MTO resulting in possible fines and boater's license suspension. Many of the cottages on our lakes also have long water lines, which may reach out far from shore. Always look out for water line markers so that no one's line gets caught and dragged or intake hoses getting clogged from being displaced into the lake floor.

In keeping with the topic of boat safety, it is important to remind everyone to please refrain from drinking and driving while operating a motor boat for all lake activities such as watersports (Wakeboarding/tubing), fishing, or enjoying an evening cruise to view the amazing sunsets we have here. With the increase in boat traffic, increase in people living on our lake as their primary residence and the attention from the new lodge developments, the OPP and MNR have begun increasing their presence on our lake the last few years making regular trips for routine stops. I know we all appreciate the increase in their presence as it helps to protect our community and deter unwanted visitors looking to break and enter (we have had many this year). As members of our association, we all take great pride in our community and I believe all of us would be very heartbroken to see our lake develop a bad reputation for drinking and driving violations.

Should anyone have safety concerns or would like to report lost/damaged markers and other safety equipment please do not hesitate to contact me. If you need to report a fire, please call 310-FIRE (3573).

Regards,

Joel Desmarais

Director Of Safety

705-235-6107 joeldesmarais@gmail.com

VOLUNTEER WANTED

The TLCA is currently in need of someone to take on the position of Bulletin Director. You need to know some type of layout software—e.g. MS Publisher, or In Design, there are many other options. For more information, please contact:

NOTICE OF ANNUAL GENERAL MEETING— Sunday, July 10th—10 a.m.

At Silvery Moon Lodge (outdoor meeting, bring your lawn chair)

Notice of Motions to be brought forward at the meeting:

Because of the newly revised Ontario Not For Profit Corporation Act that came into effect October, 2021, the following amendments are required to our By-Law No, 1 to comply with the updated Act.

Article 6, add a second paragraph:

If all the directors of the corporation consent, a director may participate in a meeting of the board or a committee of directors by telephonic or electronic means that permit all participants to communicate adequately with each other during the meeting. A director participating by such means is deemed to be present at the meeting.

Article 18 add paragraph:

Conflict of interest - A director who is a party to a material contract or transaction or proposed material contract or transaction with the corporation or is a director or officer of, or has a material interest in, any person who is a party to a material contract or transaction or proposed material contract or transaction with the corporation shall make the disclosure required by the Act. Except as provided by the act, no such director shall attend any part of a meeting of directors during which the contract or transaction is discussed or vote on any resolution to approve any such contract or transaction

Article 17: Delete text and replace with: *That the financial records will be audited on an annual basis by a Chartered Accountant, and a report provided to the general membership. That Bradley Lecour be appointed as the TLCA's Auditor commencing 2022, and to hold the position at the discretion of the membership.*

The Board also discussed the necessity of increasing membership dues effective 2023. The Association has not had an increase in many years and the cost to run the Association has gone up. Our membership dues include 3 bulletins mailed to each member per year, a picnic, safety markers, fire pumps and much more. This is a breakdown of expenses calculated PER MEMBER based on 2019 figures: Bulletin costs \$20.37, (which is partially offset by advertising revenue), Picnic, net of revenue \$4.80 (usually breaks even), Safety \$5.82, Administration \$22.85, totalling \$53.84 per member. Our main revenue sources which are Memberships, Donations, and Advertising total \$49.62. As you can see, we are running things very close to the line and if unexpected expenses come up, we don't have any room in the budget for them. Without donations, we would be in deficit positions.

Article 22: *That the annual membership dues be raised by \$10.00 to \$35.00/year effective 2023.*

We are still seeking **Directors for the Bulletin and Vice-President** positions, Your Association cannot continue to operate without these people. The President is currently holding 3 positions which is unsustainable.

Door Prize

Come and participate in YOUR Association.

FISHERY—Deven Stillar

Trout Lakers!

The snow has melted, the ice has thawed, spring has sprung and the blackflies are out in full force, just ask my ankles. As we get ready for another summer full of sun, fun, wishing & fishing we thought it would be a good idea to have a refresher of our lakes fishing regulations, especially as there's been some changes in the last few years.

Please take a few minutes to review before hitting the water & catching the big one!

Zone 10 Trout Lake Fishing Regulations

S - Sportsman Fishing License

C - Conservation Fishing License

Lake Trout

Season: January 1 to Labour Day
Limits: S-2; not more than 1 greater than 40 cm, and C-1

Largemouth and Smallmouth Bass combined

Season: third Saturday in June to November 30
Limits: S-6 and C-2

Muskellunge

Season: third Saturday in June to December 15
Limits: S-1; must be greater than 122 cm, and C-0

Northern Pike

Season: open all year
Limits: S-6; not more than 2 greater than 61 cm, of which not more than 1 is greater than 86 cm, and C-2; not more than 1 greater than 61 cm, none greater than 86 cm

Sunfish

Season: open all year
Limits: S-50 and C-25

Walleye and Sauger combined

Season: January 1 to March 31 and third Saturday in May to December 31
Limits: S-4 and C-2; not more than 1 greater than 46 cm

Yellow Perch

Season: open all year
Limits: S-50 and C-25

Baitfish Regulations

FMZ 10, with the exception of Cockburn Island, Michipicoten Island, St. Joseph Island, and Manitoulin Island, is part of the Northeast Bait Management Zone (BMZ). Baitfish or leeches, whether live or dead, may not be transported into or out of a BMZ.

ENVIRONMENTAL UPDATE

Welcome to another year on Trout Lake! As we enjoy and share all the natural assets and recreational opportunities on Trout Lake, please remember that keeping our lake clean, healthy and beautiful is the responsibility of all cottage owners and visitors. This is important to prevent unsightly and harmful algal blooms, to sustain fish populations including lake trout which are sensitive to poor water quality, to protect local wildlife, and ensure healthy ecosystems and trophic level.

Simple ways to be a lake steward include:

- Maintaining your septic system and checking for leaks

- Keeping a natural shoreline buffer of native vegetation to filter contaminants and prevent erosion

- Be mindful of products you use on your lakefront property

- Responsible boating

- Learning about local wildlife and reporting sightings to community science programs such as iNaturalist and the Canadian Lakes Loon Surveys

- Volunteering with the Trout Lake Campers Association

Trout Lake Water Quality

Lake health can be classified by its trophic status, which is an indicator by how much growth or productivity occurs in the lake. Volunteers of the Trout Lake Campers Association have been monitoring indicators of trophic conditions for Trout Lake since 1990 in association with the Lake Partners Program.

Water Clarity

Water clarity is an indicator of ecosystem health as it affects the depth to which aquatic plants can grow, the temperature of the water, and amount of dissolved oxygen. Good water clarity is not only aesthetically important for property value and recreational use, but also vital for wildlife, such fish and loons. Water clarity fluctuates seasonally and with changes in weather and food webs. It can also be negatively impacted by shoreline properties such as erosion, runoff, algal growth and suspended sediment. Water clarity in Trout Lake is measured with Secchi depth readings two to three times a year (spring, late summer, and occasionally in the fall).

Phosphorus

Phosphorus is a limiting nutrient that controls growth of algae and is an essential element for aquatic organisms. Excessive phosphorus from fertilizers, laundry detergents and septic systems can cause algal blooms and in some cases noxious odours and toxins which impact human and animal health. Phosphorus readings in Trout Lake are taken at 6 sample sites in the spring.

Calcium

Calcium is an important nutrient for aquatic organisms, particularly for the formation of shells such as for clams, crayfish and amphipods. Calcium loss in lakes can occur as a result of residual effects of acid rain, forest harvesting and climate change. This can be detrimental to the growth, reproduction and survival of a variety of organisms including phytoplankton, birds and fish. Calcium readings in Trout Lake are taken at 6 sample sites in the spring.

Trophic Levels for Trout Lake

Water quality analysis from recent sampling reveals that Trout Lake is oligotrophic, which means it has low concentrations of limiting nutrients and therefore low algal growth. Oligotrophic lakes generally have deeper, colder waters that can hold more dissolved oxygen and are suitable habitat for cold water fish species such as lake trout.

Friendly reminder that turtle nesting season is mid-May to mid-June which means they will be traveling across lake access roads and nesting. Please keep an eye out and avoid hitting them as road mortality is a big conserva-

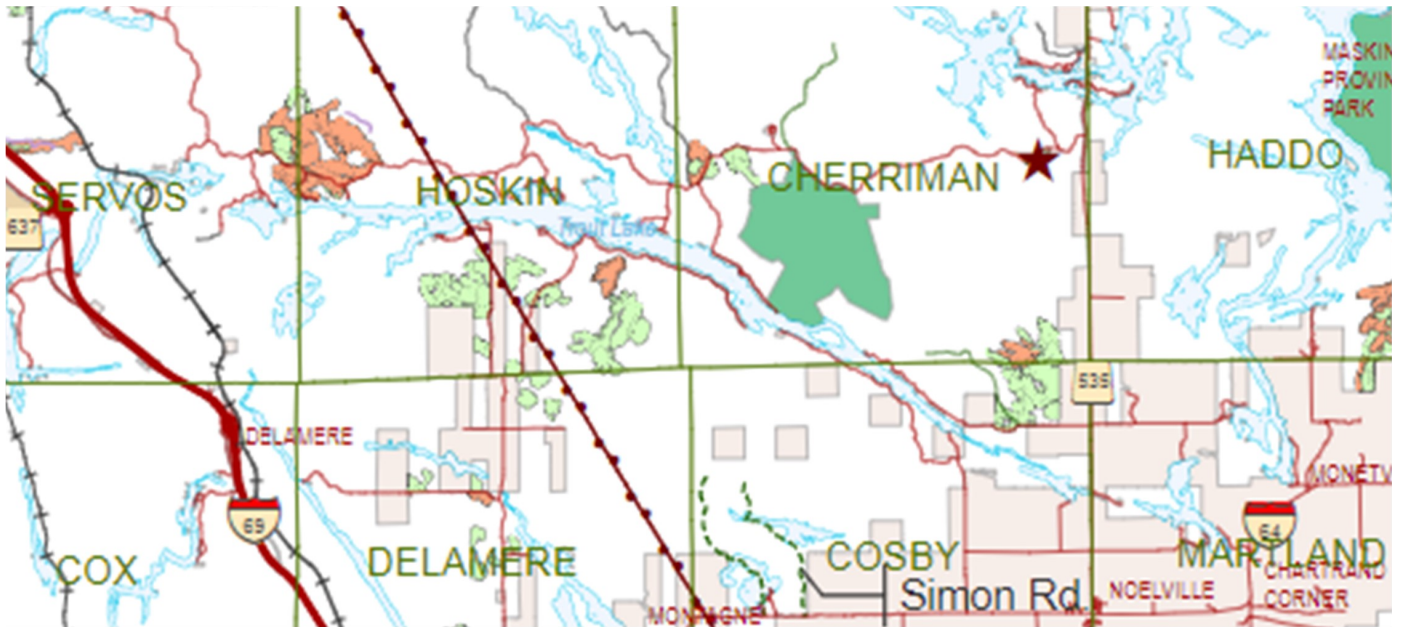

tion threat to turtles. Sightings of turtles can be reported to iNaturalist and is easy to do using their free app for smart phones. This data will contribute towards turtle research and conservation projects.

FORESTRY UPDATE

As some may have noticed, forest harvesting is occurring along Trout Lake. Forest management plans prepared for Crown forests in all management units in Ontario are accessible to the public online, https://nrip.mnr.gov.on.ca/s/fmp-online?language=en_US. This includes Annual Work Schedules, describing all forestry activities to be carried out that year namely harvest, renewal, road construction, prescribed burns, aerial pesticide spraying projects and insect pest management programs. An Annual Report of the completed activities is also posted on the website. See map below of the 2022/2023 Annual Work Schedule for Trout Lake created from the “2020-2030 Forest Management Plan for the Nipissing Forest” map developed by the Vermilion Forest Management Company. The original map can be found on the Natural Resources Information portal.

2020 - 2030 Forest Management Plan for the Nipissing Forest

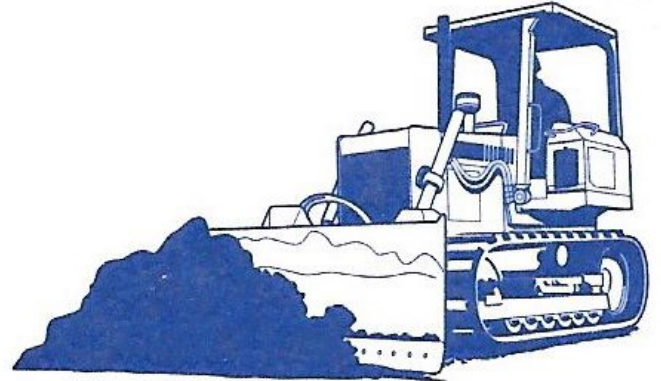

2022/2023 Annual Work Schedule Summary Map - Selected Harvest Operations

Selected Harvest Areas	Selected Harvest Access Strategy	Existing Roads	Linear Features	Ownership

Arrival

Highway yields to gravel road, then narrow lane.
Each turn slows the car, opens windows wider,
guides our transition from city rush to forest ram-
ble.

The lake sparkles in greeting
as the last turn reveals the camp,
sun-dappled and serene,
blinds pulled, waiting hopefully.
We tumble from the car,
savour that first deep sweet breath
of earth and trees and water,
greet the birches and pines,
raise blinds to bathe the rooms in blue and green,
throw open windows to the fragrant breeze.
Bags stowed, coolers emptied,
we drop our clothes and run for the lake,
the first plunge washing the city from our skin –
now we have arrived!

WE'VE GOT YOUR LUMBER.®

MEMBERSHIP REPORT—Debbie Lanktree

Hello Trout Lake Campers:

Spring has sprung and it's time to get back to the lake!

Please remember to pay your membership dues so the Association can continue all of its great work.

Membership renewal letters are being sent out in May. Dues remain at \$25. We ask that you please pay by June 30th.

This year there are two options to pay:

E-transfer to tlcabank@gmail.com (please be sure to include your name, email, mailing and Trout Lake address in the comments section).

Mail cheque to

Treasurer, Trout Lake Campers Association
P.O. Box 315
Noelville, ON
P0M 2N0

Questions regarding payment can be sent to Dave Moxham, Treasurer at

davemoxham@live.com.

Please encourage any new owners on the lake to join the Association. If there have been changes to your contact information please let me know so you continue to receive communications and bulletins.

Thank you for your support. Hope everyone has a great summer!

Debbie

Email:

lanktreedebbie@gmail.com

Cell: 416-660-5343

*Note: For new members wanting to join, we will shortly have an application form up on the website. Please tell any new owners about the benefits of supporting this association.

THE DIRTY DOZEN FOR SEPTIC SYSTEMS

These twelve products & chemicals can have negative effects on septic systems & should be strictly *limited in use*, or even *eliminated*:

 Liquid Fabric Softeners. Fabric softeners coat clothes with slimy chemicals that are harmful to your septic system	 Bath & Body Oils. Avoid using oily lotions & personal care products with micro plastics (micro beads)
 Drain Cleaners. Toxic drain cleaners can affect healthy bacteria activity & impact the ability to properly treat wastewater	 Toilet Cleaners. Most products contain harsh cleansers that can cause long term problems with continual use
 Spray Shower Cleaners. The sanitizing & emulsifying features of these products are very harmful to septic systems	 Degreasers. Degreasers contain dangerous carcinogens that flow through your septic tank & into the soil
 Quaternary Ammonia. Known as "quats", these complex organic salt compounds are found in many products like disinfectants, surfactants & fabric softeners	 Prescription & OTC Drugs. Never flush drugs & antibiotics down the drain - they can kill healthy microbes in the system & cause increased maintenance
 Antibacterial Products. These chemicals kill bacteria & microbes but are NO MORE effective at deactivating viruses than any other soap or detergent	 Powdered Detergents. Dry detergents may have fillers, sealants or extenders that can clog your dispersal field
 Surfactants. Found in almost every detergent, soap & cleanser, surfactants lead to faster solids buildup & the degradation of soil	 Construction Debris. Paint, chemicals, gasoline, oil, pesticides & antifreeze can stress or destroy the biological treatment in your system

Heating and Cooling Your Cottage Can Leave You Questioning

- I'd like a heating system to extend my camping season but what is the best option?
- Do I have enough space for a furnace and duct system?
- Do I have enough capacity in my electrical panel for a new Air-Conditioner?
- I don't want to bother with propane or costly baseboard heaters. What are my options?

Our group of industry experts will work with you to find the best solution to fit your budget.

Cottage Heating and Cooling Services

- Ultra high-efficiency ductless or central air heat pump system installations capable of operation down to -30 degrees Celsius (No propane needed)
- Baseboard heating conversions
- Propane furnaces, wall mounted units, space heaters and garage unit heaters
- On demand hot water systems or hot water tank installations and replacements

Alice Ziniuk

April 29, 2022 96 years old

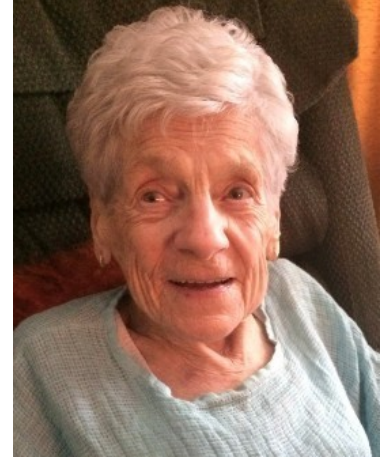

December 6, 1925 – April 29, 2022

With broken hearts we say goodbye to our beloved Mother, Baba, Sister-in-law, Aunt, Friend...Alice, so dear to so many.

Peacefully, on April 29, 2022 in Whitby, Ontario in the loving care of her family. Alice was the beloved wife of the late William Ziniuk (January, 2018) and devoted mother to her son Walter and daughter Cindy Nielissen. Without question, Alice's pride and joy was her granddaughter and namesake Alice Nielissen (Ali).

Alice is survived by her sisters-in-law Doreen Woldnik and Helen Ziniuk and numerous nieces and nephews.

The family would like to extend special thanks to Dr. Jeffrey Martin, nurse Tamina and PSW Sarah and the Lakeridge Health palliative care team for their exemplary and compassionate care. Alice was herself a registered nurse extraordinaire and it was comforting to see care in kind returned to her.

Gerald Mathieu—It is with heavy hearts, that we announce the passing of Gérald Mathieu on March 14, 2022, at the age of 66 surrounded by loving family. Predeceased by his father Raoul Mathieu and mother Florence Mathieu (née Séguin). Dear brother of Lorraine (predeceased), Roland (Paulette), Jean-Guy (Lucy) and Denis (Deborah). Beloved husband of Mona Mathieu (née Leblanc). Devoted father of Kim (Will predeceased), Rob (Tammy), Craig Tricco (Natalie), Angie Bene (Shane) and Stephanie Tricco. Loving grandfather of Connor, Emilie, Ethan, Emma, Joshua, Lucas, Ella and Ava.

His greatest joy in life was his family. His pride of his children and grandchildren was apparent to everyone he talked to.

Brian Smith—AKA -Pizza, Smitty, Uncle “B”, Rev.

January 21, 1963 – April 9, 2022

At the same time his Bruins win the game in “OT”. BRI was slowly and finally making his escape from a long brawl with liver cancer. He spent the evening consoled by Dan, Nat & Ali. He some how found the will to hang on for the arrival of his only brother Kerry.

The following day alone with just Shelley & Kerry. Bri made his epic departure peacefully and without anguish. Always putting his family first, Bri made his departure so easy for them to bear. Proudly and painless, truly a class act and so deserving. With emotions blazing, our unparalleled and immeasurable MVP Got Thrown out of the Game.

Brian was born the youngest son of Charles “Chucker” and Patricia (MacKay) Smith. He lost his Dad Chucker, a well liked and respected man in the community, at the very young age of 17. The unwavering display of respect and support that he gave his mom, never went unnoticed. Brian is the only sibling to a highly respected and admired brother Kerry. Bri was given the handle “Uncle B” by his only niece Olivia “Liv” and nephew Erik. These 2 beauties brought more love to his heart than he could ever dream of.

Bri was the compassionate and supportive husband to Shelley (Strong), always allowing her to “just be herself”, even though she talked too much and too long. Bri also was obsessed with making sure his bestie & side kick puppy “Griffon” received all the best care, best food and attention she deserved. She brought Bri so much joy and truly was a “Perfect Dog”.

Pizza was the only son in law to George Strong. Pizza displayed all the qualities he always wanted for his only daughter. It gave him great comfort immediately, was released of all of his concern and worries. George knew she was in good hands, so then gladly made her Pizza’s problem now.

Pizza made best friends with his only devoted brother-in-law Dan (Strong). They shared years of laughter and tears/, breakups and breakdowns, grief and gain, shame and “love for the game”, respect and disrespect, and always teamed up for the compassionate support for Shelley.

“Reverend Brian Pizza Smith” has a soft spot for his sister-in-law Sherry (McDonald) bonding over bonfires and sharing love for “The Island”.

Bri will leave behind his “Trout Lake Family” that he held close to his heart for their continued support, comfort, acceptance, and genuine friendship.

IN MEMORIUM

Jan Rudzinski

January 5, 1932-January 21, 2022

In loving memory of Jan Rudzinski, age 90 years, who passed away peacefully on Friday, January 21, 2022 at his home, by the side of his loving wife. Beloved husband of 68 years to Barbara Rudzinski (nee Syzmanska). Loving father of Renata Stunt (Bill), Mark (Sherry), and Jan (Grace), Cherished grandfather of Karl, Jamie, Ian (Kaytlin) and Alex (Alisha) Great grand father of Declan and John. Predeceased by his parents Antoni, and Karolina and 7 siblings, Jan was a hardworking and devoted family man. Born in Poland in a difficult time of the 2nd world war and subsequent occupation. There he met his wife and made his way to Canada in 1959 to start a new life.

Always working hard at various jobs, he eventually started his own successful business to work for himself. Jan could build and fix anything and built his retirement home (Camp) on Trout Lake. There he retired early in 1986 and was a fixture on the lake, always chopping wood, helping neighbours, maintaining the fish pond and watching the birds. The camp became the hub where he always welcomed family and friends. Jan will be missed but will remain in the hearts of all who knew him.

There will be no visitation or funeral. A Celebration of Life will be held later this year

Garry Murphy—In loving memory of Garry Murphy 84 years. Passed away peacefully at Health Sciences North on Monday, February 7, 2022 surrounded by the love of his family. Beloved husband, best friend and true love of 62 years to Donna. Loving father of Linda Lafond (Danny), Grandfather of Brock, (Erin) Lafond, Brenna (Philip) Cox, and Great Grandfather of Philip and Clara Cox. Loving father of Lance (Yvonne), and Grandfather of Dr. Chad Garry Murphy. Loving father of Lori (Walter) Cavaliere and Grandfather of Carlo (Attorney) and Lorenzo Cavaliere.

Garry was born in Timmins, Ontario on January 10, 1938. He met the love of his life, Donna, in 1958. They married on March 26, 1960. He taught his grandchildren fishing techniques and how to play an honest card game. They have endless happy memories of playing cards and fishing. Garry will especially be remembered for his sense of humour and little pranks. Garry was happiest while spending time at camp on Trout Lake. Playing backgammon and cards every day with his queen, Donna, while listening to music, feeding the chipmunks and squirrels, (fur faces) as well as fishing were his ultimate pastimes. He retired from Falconbridge in 1990, having served 30 years. During his retirement, he enjoyed many winters at their condo in New Port Richey, Florida. He lived his life to the fullest and will be missed and loved by all who knew him.

Garry was a proud member of the Trout Lake Campers' Association since 1958. They bought their camp on Wiggle Road in 1986. He was a past President of the Association.
